**ANALYSIS:** *(Attach a separate page if necessary)*

The intent of the legislation of HB 260 is to amend the section of the law related to the purchase of cigarettes or tobacco products by a person under 19 years of age; to amend the section of the law related to licenses for persons engaged in activities involving tobacco products; to amend the section of the law related to taxes on cigarettes and tobacco products; and to amend the section of the law related to the amount of the bond required to stay execution of a judgement in civil litigation involving the tobacco product Master Settlement Agreement during an appeal.

This legislation in its current form would have no direct impact on the Tobacco Prevention and Control Program. Price increases in the form of tobacco taxes are effective strategies for preventing tobacco use by youth.
