Temporary						

ANALYSIS: (Attach a separate page if necessary)

This bill amends AS 28.35.030 (Motor Vehicles- Operating a vehicle, aircraft or watercraft while under the influence...) by doubling the mandatory minimum sentence for drunk driving if the blood alcohol content (or the equivalent as measured by breath) is .16 or more. The mandatory minimum for refusal to be tested would also be doubled.

Passage of this legislation will have an indeterminate fiscal impact on Law because offenders will be less likely to enter a plea with the increased mandatory penalty. Law estimates that at least half the drunk driving cases currently involve a blood alcohol content of .16 and above.
