ANALYSIS: (Attach a separate page if necessary)

This bill would make it manslaughter for a person to manufacture or deliver a controlled substance in violation of Alaska's drug laws if a person dies from ingesting the substance. The bill also would make it a class C felony to manufacture or attempt to manufacture methamphetamine in a building where children reside. It also would raise the penalty for possessing methamphetamine in solution with intent to extract methamphetamine salts from it. The Department of Law does not anticipate a significant fiscal impact from passage of this legislation.
