

SENATE JOURNAL
ALASKA STATE LEGISLATURE
TWENTY-FOURTH LEGISLATURE
SECOND SESSION

Juneau, Alaska

Wednesday

February 1, 2006

Twenty-fourth Day

Pursuant to adjournment the Senate was called to order by President Stevens at 11:17 a.m.

The roll showed eighteen members present. Senators Kookesh, Stedman were excused from a call of the Senate.

The prayer was offered by the Chaplain, Pastor Tim Frega of the Auke Bay Bible Church. Senator Hoffman moved and asked unanimous consent that the prayer be spread. Without objection, it was so ordered.

Dear Heavenly Father,

Thank You for the life You have given each one of us. What a wonderful gift it is. May we look at life as precious and at the same time very fleeting. Because of that may we take time to honor You and Your Son Jesus Christ. We look at the complexity of a small cell and we realize that man is fearfully and wonderfully made. May the simple view of our body bring a reverent fear and awe of who You are.

I also thank You that we have eternal life in Jesus Christ. Please impress on the hearts of each one of these men and women that You want a personal relationship with each one of them through Your Son. May we all relish the fact that as precious as life is that You gave Your only Son's life so that each one of us may experience eternal life through a relationship with You.

In Christ's name I pray,

Amen.

Senator Seekins led the Senate in the Pledge of Allegiance.

Certification

Senator Gary Stevens moved and asked unanimous consent that the journals for the twenty-second and twenty-third legislative days be approved as certified by the Secretary. Without objection, it was so ordered.

**Introduction and Reference of
Senate Resolutions****SJR 17**

SENATE JOINT RESOLUTION NO. 17 BY SENATOR FRENCH,

Urging the United States Department of Justice and the Alaska Department of Law to identify all natural resource damages from the Exxon Valdez oil spill that were unanticipated at the time of the 1991 settlement, to develop plans to remedy the damages, and to present the ExxonMobil Corporation with a request for the full \$100,000,000 that is available through the "Reopener for Unknown Injury" clause of the 1991 civil settlement to carry out these plans.

was read the first time and referred to the Resources and Judiciary Committees.

Introduction and Reference of Senate Bills**SB 259**

SENATE BILL NO. 259 BY SENATORS GUESS, Bunde, entitled:

"An Act relating to children attending school; amending provisions relating to compulsory school attendance; relating to truancy and punctuality; relating to permanent fund dividend program notice requirements and to ineligibility for permanent fund dividends for violations of school truancy and attendance laws or for expulsions from school; and providing for an effective date."

was read the first time and referred to the Health, Education and Social Services and State Affairs Committees.

SB 260

SENATE BILL NO. 260 BY SENATOR SEEKINS, entitled:

"An Act extending the date by which the Task Force on Workers' Compensation shall report its findings and the termination date of that task force; and providing for an effective date."

was read the first time and referred to the Labor and Commerce Committee.

SB 261

SENATE BILL NO. 261 BY THE SENATE RULES COMMITTEE BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to the designation of traffic safety corridors; relating to the bail or fine for an offense committed in a traffic safety corridor and to separately accounting for such fines; and providing for an effective date."

was read the first time and referred to the Transportation and Finance Committees.

The following fiscal information was published today:

Fiscal Note No. 1, Department of Transportation and Public
Facilities

Fiscal Note No. 2, zero, Department of Public Safety

Governor's transmittal letter dated January 31, 2006:

Dear President Stevens:

Under the authority of art. III, section 18, of the Alaska Constitution, I am transmitting a bill relating to the designation of traffic safety corridors; and relating to the bail or fine for an offense committed in a traffic safety corridor and to separately accounting for such fines.

This bill would authorize the Department of Transportation and Public Facilities to designate a portion of a highway to be a traffic safety corridor by posting signs at the beginning and end of the corridor. The designation would be made to promote traffic safety in that area.

The Alaska Supreme Court and each municipality would be required to provide that the scheduled amount of a fine or bail for a motor vehicle or traffic offense in a traffic safety corridor would be double the amount of the fine or bail if the offense had not been committed in a traffic safety corridor.

The provisions of AS 28.05.151(d) and AS 28.40.070 currently provide for double fines or bail for motor vehicle or traffic offenses in areas designated as highway work zones. These provisions would be amended by adding references to traffic safety corridors.

The bill also would provide for separate accounting for fines collected for traffic safety corridor offenses, and for appropriation of 50 percent of those collected fines to the Department of Transportation and Public Facilities, highway safety planning agency, for highway safety programs.

The bill would have an immediate effective date so that traffic safety corridors could be designated as soon as possible.

I urge your prompt and favorable action on this measure.

Sincerely yours,

/s/

Frank H. Murkowski

SB 262

SENATE BILL NO. 262 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to riparian protection standards for
forest resources and practices; and providing for an
effective date."

was read the first time and referred to the Resources and Finance
Committees.

The following fiscal information was published today:

Fiscal Note No. 1, zero, Department of Natural Resources

Governor's transmittal letter dated January 31:

Dear President Stevens:

Under the authority of art. III, sec. 18, of the Alaska Constitution, I am
transmitting a bill relating to riparian protection standards for forest
resources and practices.

The bill would complete the task of setting statewide riparian
protection standards that began with the 1990 changes to the Forest
Resources and Practices Act (AS 41.17). Standards for Region I, the
coastal forest, and Region III, the Interior, have already been
established. Now, the work has been finished to set standards for
Region II, Southcentral.

Section 1 of the bill sets out legislative findings supporting the
standards. Such findings are helpful to managers and the regulated
community in understanding the underlying purposes and intent for
the statutory language. These findings recognize the unique nature of
Southcentral Alaska forests and forest uses.

Section 2 of the bill would set the new standards for private land in Southcentral Alaska. For large, nonglacial, and for most glacial, anadromous fish-bearing water bodies, timber harvest may not occur within 150 feet of the water body and wider protections are set for outer bends subject to erosion. Other types of water bodies receive either 100-foot or 50-foot no-harvest buffers, depending on stream characteristics.

Section 3 of the bill would set the new standards for state land in Southcentral Alaska. The no-harvest buffers would be the same as those set for private land. This section also would clarify that adjacent estuarine areas are subject to the same protections as are the fresh water bodies. Also, this section would establish that for all four types of fish-bearing water bodies in the region, harvest may occur from the landward boundary of the no-harvest buffer to 300 feet from the water body only insofar as it is consistent with the maintenance or enhancement of wildlife habitat.

Section 4 of the bill would set new standards for other public land in Southcentral Alaska. These standards are the same as those applicable to state land, except that there is no requirement that harvest from the boundary out to 300 feet be consistent with maintenance or enhancement of wildlife habitat.

In section 5 of the bill, the term "riparian area" would be amended to reflect the new standards for Region II. Section 6 of the bill would add new definitions necessary to understand the standards. Thus, the four new stream categories (Types II-A, II-B, II-C, and II-D) are explained. Finally, the terms "outer bend subject to erosion," "point bar," "terrace," and "terrace top break" all would be defined.

Section 7 of the bill would set the effective date as July 1, 2006.

The bill would complete the fish habitat riparian protection standards that are one of the primary purposes underlying the Forest Resources and Practices Act. I urge your prompt and favorable action on this measure.

Sincerely yours,

/s/

SB 263

SENATE BILL NO. 263 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act making supplemental appropriations, capital appropriations, and other appropriations; amending appropriations; making appropriations to capitalize funds; and providing for an effective date."

was read the first time and referred to the Finance Committee.

An accompanying spreadsheet from the Office of Management and Budget was attached and is on file in the office of the Senate Secretary.

Governor's transmittal letter dated January 31:

Dear President Stevens:

I am transmitting to you today two supplemental appropriation bills for Fiscal Year 2006. Issues requiring attention on an expedited basis are in a separate "fast track" bill. The enclosed "regular" supplemental bill, however, includes supplemental needs with less immediate timing requirements. We are submitting a combined package (both "fast track" and "regular") that totals \$113.4 million in general funds. This reflects necessary program cost increases for the remainder of Fiscal Year 2006.

The largest item in the "regular" supplemental bill is \$78.9 million in general funds for the Medicaid program, \$44 million of which is due to the U.S. 9th District Appellate Court ruling against the state on the FairShare program. Also in this bill is \$3.2 million in general funds for the Department of Corrections, due in large part to the increase in the number of prisoners. This bill totals \$99.9 million in general funds.

The overall total of supplemental spending is above what the administration had planned. Much of the requested funding is to cover increases due to events that were not anticipated last session—from unprecedented fuel cost increases, a record number of prisoners, to the court's disapproval of the Medicaid FairShare program that was started prior to this administration.

Sincerely yours,

/s/

SB 264

SENATE BILL NO. 264 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act making supplemental appropriations, capital appropriations, and other appropriations; amending appropriations; making appropriations to capitalize funds; and providing for an effective date."

was read the first time and referred to the Finance Committee.

An accompanying spreadsheet from the Office of Management and Budget was attached and is on file in the office of the Senate Secretary.

Governor's transmittal letter dated January 31:

Dear President Stevens:

Today I am transmitting two supplemental appropriation bills for Fiscal Year 2006. The enclosed bill, sometimes referred to as the "fast track" supplemental bill, includes items that have particularly tight time requirements that are not accommodated by the usual passage of supplemental appropriations in May.

The "fast track" supplemental totals \$13.5 million in general funds. The bill contains general fund requests of \$4.5 million for the Department of Corrections, primarily for inmate health care costs, \$4.1 million for disaster relief efforts, and \$2.6 million for the payment of judgments and claims, saving approximately \$30,000 in interest by inclusion in the "fast track" supplemental and the bill's potential passage in early March.

In addition, we are requesting federal funds of \$30.1 million for transportation projects that are ready to go to bid for the upcoming construction season.

I ask that this legislation be considered on a "fast track" with final action in early March.

Sincerely yours,

/s/
