AMENDMENT #5

OFFERED IN THE HOUSE

BY REPRESENTATIVE HAWKER

TO: CSHB 2001(FIN), Work Draft 24-GH0014W

1 Page 22, Line 19, following “well;”

2 Insert:

3 “[AND] (ii) at the time of the request for determination under (i), the commissioner of
4 natural resources may request from the explorer that specific data sets, ancillary data, and
5 reports including all results, and copies of data collected and data analyses for the well be
6 provided to the Department of Natural Resources upon completion of the well; in this
7 subparagraph, well data includes all analyses conducted on physical material, and well
8 logs collected from the well and sample analyses; testing geophysical and velocity data
9 including vertical seismic profiles and check shot surveys; testing data and analyses; age
10 data; geochemical analyses; and access to tangible material; and (iii)

11

12 Page 22, Line 20, following “on”

13 Insert:

14 whether the geological objective of the well is a potential oil or gas trap that is distinctly
15 separate from any trap that has been tested by a preexisting well and what information
16 under (ii) must be submitted after completion, abandonment, or suspension under AS
17 31.05.030
