3 “\* **Sec. 3.** The uncodified law of the State of Alaska is amended by adding a new  
4 section to read:

5 REPORT TO THE LEGISLATURE. (a) The Board of Pharmacy shall, by the  
6 first day of the First Regular Session of the Twenty-Sixth Alaska State Legislature, submit  
7 a report to the legislature that

8 (1) identifies how the controlled substance prescription database would be  
9 designed, identifies the measures that would be undertaken to limit, identify, and log  
10 unauthorized accesses to the information in the database, discloses where the database  
11 would be maintained and the persons that would be allowed access to the database, and  
12 identifies best practices of other states that have implemented similar databases;

13 (2) identifies measures that would be undertaken to ensure the privacy of  
14 the records maintained in the database;

15 (3) identifies possible alternatives for including information in  
16 the database as opposed to including all prescription information automatically in the  
17 database. This should include whether other states have alternatives for inclusion of  
18 prescription information in the database.

19 (b) The Board of Pharmacy shall submit the report required under (a) of this  
20 section to the senate secretary and the chief clerk and shall notify the members of the  
21 legislature that the report is available.”
