**ANALYSIS:** (Attach a separate page if necessary)

Approximately 4,000 to 6,000 marriages throughout the nation are known to occur annually through international matchmaking services. Based on the state's less than one percent proportion of the national population, it is estimated that about 50 additional fingerprint based background checks per year would be submitted to the State Department of Public Safety Records and Identification Bureau as a result of implementing this legislation. The DPS is authorized under AS44.41.025 to charge fees for processing fingerprints through the Alaska automated fingerprint system, and for the processing of information requests. The additional fees generated would negate the anticipated costs associated with this legislation. Assuming just 50 additional fingerprints processed per year, the agency can absorb the increased workload with existing staffing.
