ANALYSIS: (Attach a separate page if necessary)

This legislation requires use of standard indemnity clause with comparative fault allocation within construction related professional service agreements by all public agencies as broadly defined.

The proposed indemnity language is patterned after standard terms already used for many years by state agencies protected by state's self insurance program administered by the Division of Risk Management, thereby there is no operational or financial impact.

Prepared by: J. Brad Thompson, Director
 Division: Risk Management
 Approved by: Kevin Brooks, Deputy Commissioner
Department of Administration
