Section 5 of CS HB 198 amends AS 47.07.020(b) to reset the upper income limit for Denali KidCare (DKC) pregnant women and uninsured children under the Title XXI State Children's Health Insurance Program (SCHIP) to 175% of the prevailing federal poverty guideline (FPG) for Alaska. Currently, the qualifying income limit for these children and pregnant women is set in statute at 175% of the 2003 FPG (effectively, about 154% of the current FPG). This fiscal note represents the administrative costs for the eligibility determinations for medical assistance coverage for pregnant women and children.

The eligibility decision includes determining eligibility based on the household's size and monthly income at the time of application, acting on changes in a household's circumstances that are reported during the period of eligibility, and re-examining a household's eligibility every six months.
