ANALYSIS: (Attach a separate page if necessary)

The procedure for protecting the public from a person, who as a result of mental disease or defect is competent to be tried for a crime is insufficient. This bill would address the gaps in two ways. It requires a person found incompetent to be referred to the commissioner of the Department of Health and Social Services for evaluation and treatment. It would also require 10 days notice to the prosecuting authority by the professional in charge of the person's care before the person may be released.

This bill will not have a significant fiscal impact on DHSS. However, if the current trend of increasing admissions to the Alaska Psychiatric Institute continues, it will cause capacity issues that may have to be addressed at a later date.
