Temporary						

ANALYSIS: (Attach a separate page if necessary)

This bill is not anticipated to have any fiscal impact on the AOGCC.

Most of the amendments are technical revisions involving responsibilities that are already under the purview of the Alaska Oil and Gas Conservation Commission. The bill deletes the requirement that an applicant pay a \$100 fee for a permit to drill a well. Since the Commission is fully funded through a regulatory cost charge it is more efficient to collect those costs as part of the overall regulatory cost charge rather than by subtracting an estimate of the fees that might be generated in the coming year and then collecting by individual application. This will also streamline the process for permitting as the Commission moves towards implementing e-permitting.
