**ANALYSIS:** (Attach a separate page if necessary)

This bill would require the Division of Motor Vehicles' database to interface with the Department of Public Safety database to determine sex offender status. It would also require a change to DMV's computer program to allow for an alternate expiration date.

The fiscal note reflects the cost of a contract programmer for 650 hours for analysis, review, security, planning, and implementation of the interface, and an additional 120 hours for interface implementation and automatic 1-year expiration date programming.
