**SENATE RESOLUTION NO. 10**

IN THE LEGISLATURE OF THE STATE OF ALASKA  
 TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY SENATORS WAGONER, Wielechowski, Meyer, McGuire, Egan, Menard, Stedman, Ellis, Bunde, Coghil,  
 Thomas, Dyson, Kookesh, Davis, Huggins

Introduced: 2/22/10  
 Referred: Resources

**A RESOLUTION**

1 **Supporting expansion of the use of domestic natural gas and alternative energies and**  
 2 **urging agencies to use vehicles that run on compressed natural gas.**

3 **BE IT RESOLVED BY THE SENATE:**

4 **WHEREAS** the United States imports more than 65 percent of its petroleum, two-  
 5 thirds of which is used in the form of gasoline and diesel fuel to power vehicles; and

6 **WHEREAS** a large percentage of worldwide petroleum reserves are located in  
 7 politically volatile countries, making the United States vulnerable to supply disruptions; and

8 **WHEREAS** the United States has an abundance of natural gas; and

9 **WHEREAS** compressed natural gas provides safe, clean, reliable, efficient, and  
 10 secure energy and is the alternative fuel most used today for transportation in the United  
 11 States with more than 200,000 buses, taxis, delivery vehicles, and other fleet vehicles across  
 12 the nation using compressed natural gas daily; and

13 **WHEREAS** the United States Department of Energy states that compressed natural  
 14 gas can be used as a replacement for gasoline in light-duty vehicles and as a replacement for  
 15 diesel in heavy-duty vehicles; and

16 **WHEREAS** vehicles powered by compressed natural gas discharge far fewer harmful

1 emissions than vehicles powered by gasoline or diesel fuel; and

2 **WHEREAS** studies indicate that maintenance costs for vehicles powered by  
3 compressed natural gas are lower than for vehicles powered by gasoline or diesel fuel; and

4 **WHEREAS** the federal government currently provides, and is expected to increase,  
5 incentives for use of alternative fuels, and, at the current prices of various fuels, any  
6 additional cost to purchase vehicles to run on compressed natural gas would be quickly  
7 recouped; and

8 **WHEREAS**, in 2009, the United States imported 4,350,000,000 barrels of oil,  
9 spending roughly \$265,000,000,000; and

10 **WHEREAS** 85,000,000 barrels of oil are produced daily around the world; and

11 **WHEREAS** 21,000,000 barrels of oil are used daily in the United States; and

12 **WHEREAS** world oil production has been declining since 2005; and

13 **WHEREAS** roughly 20 percent of every barrel of oil imported into the United States  
14 is used to fuel the transport of goods around the country by road;

15 **BE IT RESOLVED** that the Alaska State Senate supports expanding the use of  
16 domestic natural gas reserves and alternative energies to reduce our reliance on imported oil  
17 by supporting H.R. 1835 and S. 1408, which are under consideration by the United States  
18 Congress; and be it

19 **FURTHER RESOLVED** that the Alaska State Senate urges state and federal  
20 agencies to purchase, when possible, vehicles that can be converted to run on compressed  
21 natural gas, when it is available.

22 **COPIES** of this resolution shall be sent to the Honorable Barack Obama, President of  
23 the United States; the Honorable Dan Boren, U.S. Representative; the Honorable Robert  
24 Menendez, U.S. Senator; the Honorable Sean Parnell, Governor of Alaska; and the Honorable  
25 Lisa Murkowski and the Honorable Mark Begich, U.S. Senators, and the Honorable Don  
26 Young, U.S. Representative, members of the Alaska delegation in Congress.
