ANALYSIS: (Attach a separate page if necessary)

House Bill 166 expands the authority of the Alaska Energy Authority (AEA) to allow grants from the Southeast Energy Fund to include hydroelectric projects serving Southeast Alaska or "for other projects or programs designated by the legislature, to assist in meeting the energy needs of Southeast Alaska."

Depending on the capitalization of this fund, AEA would need to draft regulations and develop a process to administer grants and an allocation method for the various types of eligible projects. Until the fund is capitalized, AEA will be unable to determine the operating costs of this program.
