HB 168 establishes a mechanism to provide a financial incentive for hospitals to become designated as certified trauma centers in order to encourage their participation in a statewide trauma system, with the goal of improving delivery of trauma care in the Alaska medical system. This bill establishes a fund for reimbursement of trauma care for uninsured or underinsured patients, and allows designated trauma centers to apply for compensation of claims that are otherwise uncompensated by insurance or other funds.

The Department proposes to manage this fund using existing staff resources.
