ANALYSIS: (Attach a separate page if necessary)

HB 280 offers tax credits for Cook Inlet gas storage facilities and attempts to promote gas exploration and production in the Cook Inlet.

There is no anticipated fiscal impact to the Division of Oil and Gas for the management of gas storage on state land. However, Sec. 4 of the bill will provide a ten year "holiday" on all storage fees and rentals for the storage lease. Also, the accounting convention described means that "non-native" gas will be withdrawn from storage first and no royalty revenue will accrue to "native" gas until all non-native gas is withdrawn. How industry will respond to the tax credits offered by this bill is unknown, therefore, the impact on fees, rents, and royalty revenues is negative indeterminate.
