Temporary							

ANALYSIS: (Attach a separate page if necessary)

In the short term (6 years) this bill would provide very little operating revenue, due to the fact that the funding resulting from this bill is deposited into UA's Land Grant Trust Fund (LGTF, an endowment that has a payout policy similar to the POMV principles i.e., 5% of the prior five year endowment average), however, in the long term, after substantial additions to the LGTF endowment UA can see modest operating revenue i.e., in approximately 20 years UA anticipates annual investment earnings on new land sales to reach 1% of state general fund support or \$2.6M. UA Land Management will add minimal staff to accomplish management of the new lands as this land transfer would roughly replace land inventory available for sale. Land Management operating costs are already considered in the net revenue projections.
