ANALYSIS: (Attach a separate page if necessary)

HB 327 "An Act relating to the scheduling and rescheduling of certain substances as controlled substances and to the sale of products containing dextromethorphan" proposes the addition of Salvia divinorum and Salvinorin A (Divinorin A) as a Schedule IIIA controlled substance and may have a significant impact to the Controlled Substance and Evidence Sections of the Alaska Scientific Crime Detection Laboratory.

To what extent these additions will impact the laboratory cannot be determined at this time.
