Full-time								
Part-time								
Temporary								

ANALYSIS: (Attach a separate page if necessary)

This bill sets limitations for nurses working overtime hours beyond the scope of their regular duties. While the language in the bill makes it applicable to public health nurses, it would have a very limited effect on the Division of Public Health Section of Public Health Nursing. Most Public Health Nurses, as salaried employees, are not overtime eligible.

The mandated semi-annual report to the Department of Labor and Workforce Development would typically require no effort because public health nurses rarely work "in excess of a predetermined and regularly scheduled shift that is agreed upon by the nurse and a health care facility." Normal itinerant schedules, even though they often involve more than a 7.5-hour day, are always predetermined and agreed upon. In addition, the bill exempts reporting requirements for unforeseen emergencies requiring extra work. There is no projected fiscal impact on the Section of Public Health Nursing.
