**ANALYSIS:** *(Attach a separate page if necessary)*  
 SB 243 eliminates royalties from any state geothermal lease entered into for geothermal resources after the effective date. Under AS 38.05.140(d) the commissioner, for the purpose of encouraging the greatest ultimate resource recovery, already has the authority to reduce royalties on an entire leasehold for geothermal resources in order to promote development. Implementing this bill during the immature state of the geothermal industry may only result in the transfer of state resource revenue to private developers.
