02/02/10 (H) FSH AT 10:15 AM BARNES 124

WITNESS REGISTER

REPRESENTATIVE BOB HERRON
Alaska State Legislature
Juneau, Alaska

POSITION STATEMENT: Testified on SSHB 227, as prime sponsor.

KEVIN SAXBY, Senior Assistant Attorney
Natural Resources Section
Civil Division
Department of Law (DOL)
Anchorage, Alaska

POSITION STATEMENT: Responded to questions on SSHB 227.

DAVE TRANTHAM
Bethel, Alaska

POSITION STATEMENT: Testified in support of SSHB 227.

AARON BLOOMQUIST, Chairman
Anchorage Fish and Game Advisory Committee
Anchorage, Alaska

POSITION STATEMENT: Testified in support of SSHB 227.

DICK MYLIUS, Director
Department of Natural Resources (DNR)
Division of Mining, Land and Water
Anchorage, Alaska

POSITION STATEMENT: Responded to questions on SSHB 227.

ACTION NARRATIVE

10:22:00 AM

CHAIR BRYCE EDGMON called the House Special Committee on Fisheries meeting to order at 10:22 a.m. Representatives Edgmon, Keller, Munoz, Kawasaki, and Buch, were present at the call to order. Representatives Johnson and Millett arrived while the meeting was in progress

HB 227-HOLITNA BASIN RESERVE

DRAFT

[10:22:11 AM](#)

CHAIR EDGMON announced that the only order of business would be SPONSOR SUBSTITUTE FOR HOUSE BILL NO. 227, "An Act relating to the establishment of state fish and game reserves; creating the Holitna River Basin Hunting, Fishing, and Trapping Reserve; and providing for an effective date."

[10:24:31 AM](#)

REPRESENTATIVE BOB HERRON, Alaska State Legislature, referred to the outstanding questions that are under response by the appropriate state departments, including some legal questions and a delineation of the boundaries. He suggested that the next committee of referral may be able to receive these responses, in order to allow the department's adequate response time.

[10:25:21 AM](#)

REPRESENTATIVE KELLER questioned why, because state statute already requires managing land for abundance, it would be necessary to designate an area specifically for that reason.

REPRESENTATIVE HERRON clarified that intensive management (IM) practices maximize big game populations for human consumption.

[10:28:02 AM](#)

KEVIN SAXBY, Senior Assistant Attorney, Natural Resources Section, Civil Division, Department of Law (DOL), stated that current statutory mandates to manage intensively for game is limited to certain ungulate species that have been identified by the Board of Game (BOG) as being important

for high levels of human use. In the area being considered, it applies primarily to moose. The broad language of the bill, fish and game, allows interpretation that could include fur bearers, fish, and other species not limited to ungulates.

[10:29:28 AM](#)

REPRESENTATIVE KAWASAKI inquired how these populations might be managed.

MR. SAXBY offered that animal populations naturally fluctuate, but with active human management the fluctuations could be minimized, providing a more constant harvest.

REPRESENTATIVE KAWASAKI surmised that the BOG would make management decisions.

[10:31:09 AM](#)

REPRESENTATIVE KAWASAKI asked if there is other statute that applies similarly to the management of fish.

MR. SAXBY replied that it does occur to the extent that fish stocks can be separately identified and managed, or else they are managed as mixed stocks.

[10:31:56 AM](#)

REPRESENTATIVE MUNOZ referred to page 2, lines [5-9] and asked if there is a plan for prioritizing the named uses, or would they be equally managed.

MR. SAXBY indicated that this language does not establish a consumptive use priority, however, existing subsistence statute does provide preference.

[10:34:23 AM](#)

DAVE TRANTHAM, stated support for SSHB 227, sharing that he lives in this heavenly area, and believes the bill ensures preservation of the Basin for future generations.

[10:40:12 AM](#)

AARON BLOOMQUIST, Chairman, Anchorage Fish and Game Advisory Committee, stated support for HB 227. The committee sees this as a step towards creating other IM areas in the state, without impinging on the possibilities of development. Pro-abundance and predator control may again come under, and this may assist in fending off such scrutiny.

[10:42:22 AM](#)

CHAIR EDGMON closed public testimony.

10:43:13 AM

REPRESENTATIVE KAWASAKI asked Department of Natural Resources (DNR) how this legislation might impact upstream users that pursue developing natural gas or mining.

DICK MYLIUS, Director, Department of Natural Resources (DNR), Division of Mining, Land and Water, said it would add a layer of consideration when issuing permits, or leases, and determinations of whether activities would conflict with the intent of the legislation. Specifically, it would prohibit any land sales, and there is one area identified for potential sale in the upper reaches of the watershed.

10:44:26 AM

REPRESENTATIVE MUNOZ noted the private parcels adjoining the area and asked about ownership rights.

MR. MYLIUS responded that they would not be protected and that access is also protected.

REPRESENTATIVE MUNOZ inquired where that protection is stipulated in the bill.

REPRESENTATIVE HERRON referred to page 3, line 19, to indicate the language guaranteeing access.

10:45:44 AM

REPRESENTATIVE KAWASAKI asked about the private land holdings.

REPRESENTATIVE HERRON said that the west side parcels are primarily mining claims, some dating back 100 years. Additionally, there are Native allotments and homesteads.

REPRESENTATIVE KAWASAKI queried whether lease/land holders have been contacted to ensure that they have been informed of a potential change in their land status.

REPRESENTATIVE HERRON conceded that it may not have occurred, however, the consideration for this action has been in existence for about 30, and support in developing this legislation has come from some of the landholders.

[10:48:08 AM](#)

REPRESENTATIVE MILLETT inquired whether anyone holding existing mining claim would be grandfathered in or be hampered by permit requirements, under SSHB 227.

REPRESENTATIVE HERRON underscored that it is not the sponsor's intent to halt these type of extraction activities, as the historical makeup of the basin includes mining.

MR. MYLIUS concurred, and pointed out that the bill does not restrict privately owned lands. State mining claims are an exception, and would need to be developed in accordance with the purposes of the reserve.

REPRESENTATIVE MILLETT expressed concern for the ability to develop state mining claims in the area.

REPRESENTATIVE HERRON suggested that it could be taken up in the next committee of referral.

[10:50:41 AM](#)

REPRESENTATIVE JOHNSON stated his support for SSHB 227.

[10:51:22 AM](#)

REPRESENTATIVE KELLER moved to report SSHB 227 26-LS0822\K out of committee with individual recommendations and the accompanying fiscal notes.

[10:51:43 AM](#)

There being no objection, SSHB 227, Version K was so moved.

DRAFT

[10:51:47 AM](#)

CHAIR EDGMON announced that the committee would not be meeting on Thursday.

ADJOURNMENT

There being no further business before the committee, the House Special Committee on Fisheries meeting was adjourned at 10:52 a.m.
