DON JOHNSTON, Building Manager, Maintenance, Legislative Administrative Services, Legislative Affairs Agency, informed the committee that this project is similar to what was done in the Speaker's and the Majority Leader's offices. The project would include the installation of a new ceiling grid with cast plaster ceiling tiles in the staff area as well as a ceiling grid with cast plaster and decorative tiles in the legislators' office along with some recessed lighting and pendant lighting fixtures. The project will also include changing any sprinkler heads for which it's deemed necessary.

REPRESENTATIVE GARDNER inquired as to why this project is before the House Rules Standing Committee for approval.

REPRESENTATIVE CHENAULT explained that this project can go through the House Rules Standing Committee or the Legislative Council. The House Rules Standing Committee route was chosen because it was unclear when the next Legislative Council meeting will occur. The desire by Maintenance is to complete the project prior to next session.
