Analysis

HB 60 would allow for the transfer of geoduck seed from a certified hatchery to an aquatic farm.

This bill would have no impact on the Department of Natural Resources' ability to offer aquatic farming and hatchery lease sites under AS 38.05.083. While this bill might open more areas of the state to the aquatic farming of geoducks, which could result in a slight increase in overall aquatic farmsite leasees, the fiscal impact to DNR is anticipated to be minimal and could be addressed with existing staff and resources.
