30 * **Sec. 20.** AS 38.05 is amended by adding a new section to read:

31 **Sec. 38.05.023. Terms in an agreement or contract related to a North**

1 **Slope natural gas project.** (a) An agreement or contract to which the state or an
 2 entity of the state is a party that is negotiated under AS 38.05.020(b)(11) must include
 3 a requirement that the state or an entity of the state shall have access to data developed
 4 under the agreement or contract in which the state or an entity of the state has directly
 5 participated financially. Access by the state or an entity of the state to the data must be
 6 on the same or substantially similar terms applicable to any other party in a North
 7 Slope natural gas project.

8 (b) A proposed agreement or contract associated with a North Slope natural
 9 gas project may not include a provision that changes the property tax on property that
 10 was previously taxable under AS 43.56.

11 (c) A proposed agreement or contract associated with a North Slope natural gas
 12 project must provide the means for allocating infrastructure costs between the state
 13 and other parties in the project. The allocation must take into consideration the extent
 14 to which infrastructure is used by the project and used by the public and the difference
 15 between the normal expected or actual life-cycle costs for the infrastructure as used by
 16 the project and the expected or actual life-cycle costs of the same infrastructure if
 17 subject only to general public use. The proposed agreement or contract may not
 18 require the state to pay infrastructure costs that are directly related to the project and
 19 not designed for general public use in a proportionate amount that is greater than the
 20 state's share of participation in the project.

21 (d) An agreement or contract to which the state or an entity of the state is a
 22 party that is negotiated under AS 38.05.020(b)(11) must include principles based on
 23 commercially reasonable terms for delivering natural gas to public utilities in the state
 24 when the demand for natural gas by the utilities exceeds the amount of the state's
 25 royalty natural gas and natural gas delivered to the state as payment of tax that is
 26 available in a North Slope natural gas project.

27 * **Sec. 21.** AS 38.05.180(i) is amended to read:

28 (i) The commissioner may provide for the establishment of an exploration
 29 incentive credit system under which a lessee of state land drilling an exploratory well
 30 on that land may earn credits based on [UPON] the footage drilled and the region in
 31 which the well is situated. The commissioner may also provide for credits to be earned

1 by persons performing geophysical work on state land, if that work is performed
 2 during the two seasons immediately preceding an announced lease sale and on land
 3 included within the sale area and the geophysical information is made public
 4 following the sale. Credits may not exceed 50 percent of the cost of the drilling or
 5 geophysical work. Credits may be used during a limited period established by the
 6 commissioner and may be assigned during that period. Credits may be applied against
 7 (1) royalty and rental payments for oil and gas or for gas only payable to the state or
 8 (2) taxes payable under AS 43.55.011 [AS 43.55]. A credit may not exceed 50 percent
 9 of the payment toward which it is being applied. Amounts due the Alaska permanent
 10 fund (AS 37.13.010) shall be calculated before the application of credits under this
 11 subsection.

12 * **Sec. 22.** AS 38.05.180 is amended by adding new subsections to read:

13 (hh) Notwithstanding (j) of this section, the commissioner may propose
 14 modification to a lease from which a lessee has committed gas from that lease to a
 15 North Slope natural gas project. A modification may be made under this subsection
 16 only after the commissioner makes the written determination under (ii) of this section
 17 that the lease may be modified. If a modification is made, the modification shall be in
 18 effect during the initial project term that has acquired the major permits required for
 19 the work plan and budget considered by the commissioner in the written determination
 20 under (ii) of this section. A modification under this subsection may

21 (1) relate to switching between taking the state's royalty gas in value
 22 and in-kind to ensure that the lessee, the state, or another person shall bear
 23 proportionate costs for treatment, transportation, and liquefaction to the state's royalty
 24 gas or gas delivered to the state under AS 43.55.014, and the state's actions do not
 25 unreasonably interfere with the long-term marketing of natural gas by the lessee, the
 26 state, or another person;

27 (2) provide a method for establishing a fair market value for each
 28 component of the state's royalty gas and appropriate adjustments to reflect fair market
 29 deductions for reasonable costs for treatment, transportation, and liquefaction for the
 30 state's royalty gas from the North Slope to the destination market; in this paragraph,
 31 "reasonable costs for treatment, transportation, and liquefaction" may not be greater

1 than actual costs;

2 (3) modify net profit shares for oil and gas and sliding scale royalty
3 rates for gas by establishing fixed royalty rates that yield a value to the state that the
4 commissioner determines to be not less than the value the state would have received
5 under the terms of the lease before a modification under this subsection.

6 (ii) Before making a modification to a lease under (hh) of this section, the
7 commissioner shall make a written determination that the lease may be modified. The
8 determination by the commissioner must be based on a clear and convincing showing
9 by the lessee that

10 (1) the modification

11 (A) is in the best interests of the state; and

12 (B) will materially improve the likelihood of a successful North
13 Slope natural gas project;

14 (2) a North Slope natural gas project has sufficient

15 (A) financial commitment for a work plan and budget
16 necessary to support major permits and regulatory filings required by state and
17 federal agencies; and

18 (B) commitment of gas by lessees;

19 (3) the lease will produce hydrocarbons that will be transported on a
20 North Slope natural gas project during the initial project term; and

21 (4) the lessee or an affiliate of the lessee has offered to purchase,
22 dispose of, or market the state's royalty gas taken in kind and gas delivered to the state
23 under AS 43.55.014 on the same or substantially similar terms as the lessee or an
24 affiliate of the lessee sells, disposes of, or markets the lessee's gas.

25 * **Sec. 23.** AS 38.05.183(a) is amended to read:

26 (a) The sale, exchange, or other disposal of a mineral obtained by the state as a
27 royalty under AS 38.05.182, [OR] the sale, exchange, or other disposal in whole or in
28 part of a right to receive future mineral production under a state lease under this
29 chapter, **or the sale, exchange, or other disposal of gas delivered to the state under**
30 **AS 43.55.014(b)** shall be by competitive bid and the sale, exchange, or other disposal
31 made to the highest responsible bidder, except that competitive bidding is not required

1 when the commissioner, after prior written notice to the Alaska Royalty Oil and Gas
 2 Development Advisory Board under AS 38.06.050, determines that the best interest of
 3 the state does not require it or that no competition exists.

4 * **Sec. 24.** AS 38.05.183(c) is amended to read:

5 (c) If the commissioner determines that a sale, exchange, or other disposal of a
 6 mineral obtained by the state as a royalty under AS 38.05.182, [OR] of a right to
 7 receive future mineral production under a state lease under this chapter, or of gas
 8 delivered to the state under AS 43.55.014(b) shall be made otherwise than by
 9 competitive bid, and the Alaska Royalty Oil and Gas Development Advisory Board
 10 has been notified in writing of that determination, the commissioner shall make public
 11 in writing the specific findings and conclusions on [UPON] which that determination
 12 is based.

13 * **Sec. 25.** AS 38.05.183(d) is amended to read:

14 (d) Oil or gas taken in kind by the state as its royalty share or gas delivered to
 15 the state under AS 43.55.014(b) may not be sold or otherwise disposed of for export
 16 from the state until the commissioner determines that the [ROYALTY-IN-KIND] oil
 17 or gas is surplus to the present and projected intrastate domestic and industrial needs.
 18 The commissioner shall make public, in writing, the specific findings and reasons on
 19 which the determination is based.

20 * **Sec. 26.** AS 38.05.183(e) is amended to read:

21 (e) When a sale, exchange, or other disposal of oil or gas taken in kind by the
 22 state as its royalty share, or a sale, exchange, or other disposal in whole or in part of a
 23 right to receive future royalty oil or gas, under a state lease under this chapter is made
 24 other than by competitive bid, or when a sale, exchange, or other disposal of gas
 25 delivered to the state under AS 43.55.014(b) is made other than by competitive
 26 bid, the sale, exchange, or other disposal shall be awarded by the commissioner to the
 27 prospective buyer whose proposal offers the maximum benefits to citizens of the state.
 28 The commissioner shall consider

29 (1) the cash value offered;

30 (2) the projected effects of the sale, exchange, or other disposal on the
 31 economy of the state;

1 (3) the projected benefits of refining or processing the oil or gas in the
2 state;

3 (4) the ability of the prospective buyer to provide refined products or
4 by-products for distribution and sale in the state with price or supply benefits to the
5 citizens of the state; and

6 (5) the criteria listed in AS 38.06.070(a).

7 * **Sec. 27.** AS 38.05.965 is amended by adding new paragraphs to read:

8 (26) "initial project term" means the duration sufficient to support an
9 investment decision by the sponsors of a North Slope natural gas project to permit
10 realization of a competitive economic return, to enable necessary financing, and to
11 support agreements for the sale of hydrocarbons transported on a North Slope natural
12 gas project;

13 (27) "North Slope natural gas project" means a project to produce or
14 transport natural gas from state oil and gas and gas only leases that include land north
15 of 68 degrees North latitude for transport in a gaseous state from the North Slope;

16 (28) "project services" means services provided by a gas treatment
17 plant, pipeline, liquefaction facility, or marine terminal, marine transportation
18 services, or other services necessary to transport natural gas to market.

19 * **Sec. 28.** AS 38.34.020(a) is amended to read:

20 (a) A state agency or entity conducting a review or taking action relating to **a**
21 **project under AS 31.25 (Alaska Gasline Development Corporation)** [THE IN-
22 STATE NATURAL GAS PIPELINE PROJECT UNDER THIS CHAPTER] shall
23 expedite the review or action in a manner consistent with the timely completion of the
24 project.

25 * **Sec. 29.** AS 38.34.020(b) is amended to read:

26 (b) Notwithstanding any contrary provision of law, a state agency or entity
27 may not include in any project certificate, right-of-way, permit, or other authorization
28 a term or condition that is not required by law if the in-state gasline project
29 coordinator determines that the term or condition would prevent or impair, in any
30 significant respect, the expeditious construction and operation or expansion of **a**
31 **project under AS 31.25 (Alaska Gasline Development Corporation)** [THE IN-

1 STATE NATURAL GAS PIPELINE PROJECT].

2 * **Sec. 30.** AS 38.34.020(c) is amended to read:

3 (c) Unless required by law, a state agency or entity may not add to, amend, or
 4 abrogate any certificate, right-of-way, permit, or other authorization if the in-state
 5 gasline project coordinator determines that the action would prevent or impair, in any
 6 significant respect, the expeditious construction, operation, or expansion of **a project**
 7 **under AS 31.25 (Alaska Gasline Development Corporation)** [THE IN-STATE
 8 NATURAL GAS PIPELINE PROJECT].

9 * **Sec. 31.** AS 40.25.100(a) is amended to read:

28 * **Sec. 39.** AS 43.55.011(e) is amended to read:

29 (e) There is levied on the producer of oil or gas a tax for all oil and gas
 30 produced each calendar year from each lease or property in the state, less any oil and
 31 gas the ownership or right to which is exempt from taxation or constitutes a

(1) before January 1, 2014, the tax is equal to the sum of

(A) the annual production tax value of the taxable oil and gas as calculated under AS 43.55.160(a)(1) multiplied by 25 percent; and

(B) the sum, over all months of the calendar year, of the tax amounts determined under (g) of this section;

(2) on and after January 1, 2014, **and before January 1, 2022**, the tax is equal to the annual production tax value of the taxable oil and gas as calculated under AS 43.55.160(a)(1) multiplied by 35 percent;

(B) [(2)] three percent of the gross value at the point of production when the average price per barrel for Alaska North Slope crude oil

1 for sale on the United States West Coast during the calendar year for which the

17 **than**

18 **(A) four percent of the gross value at the point of**
19 **production when the average price per barrel for Alaska North Slope**
20 **crude oil for sale on the United States West Coast during the calendar**
21 **year for which the tax is due is more than \$25;**

22 **(B) three percent of the gross value at the point of**

 3 (E) zero percent of the gross value at the point of
 4 production when the average price per barrel for Alaska North Slope
 5 crude oil for sale on the United States West Coast during the calendar
 6 year for which the tax is due is \$15 or less.

7 * **Sec. 41.** AS 43.55 is amended by adding a new section to read:

8 **Sec. 43.55.014. Payment in gas of tax for gas.** (a) For gas produced on and
 9 after January 1, 2022, other than gas described in (e) of this section, the department
 10 shall allow a producer to make an election, under regulations adopted by the
 11 department, to pay in gas the production tax levied by this section in lieu of the tax
 12 otherwise levied for the gas by AS 43.55.011(e). An election under this subsection
 13 applies only to gas produced from oil and gas leases modified under AS 38.05.180(hh)
 14 from which the commissioner of natural resources has determined to take royalty gas
 15 in kind under AS 38.05.182.

16 (b) A production tax levied by this section is equal to 13 percent of the gas
 17 otherwise taxable under AS 43.55.011(e)(3) produced from each oil and gas lease to
 18 which an effective election under (a) of this section applies, when and as that gas is
 19 produced. The producer shall pay the tax in gas by delivering that 13 percent of the
 20 gas to the state at the point of production.

21 (c) The Department of Natural Resources shall manage under
 22 AS 38.05.020(b)(14) the custody and disposition of gas delivered to the state under (b)
 23 of this section.

24 (d) An assessment under AS 43.05.245 against a producer for an
 25 underpayment of a tax levied by this section may be made in terms of an amount of
 26 gas or an amount of money, as determined under regulations adopted by the
 27 department. If the assessment is made in terms of money, the amount for a month of
 28 production for an oil and gas lease subject to an effective election under (a) of this
 29 section is the product of the number of units of gas by which the producer's delivery to
 30 the state was less than the amount required by (b) of this section, multiplied by the
 31 average gross value at the point of production for each unit of the gas produced by the

1 producer from the lease during the month other than gas that was not subject to tax or
 2 gas that was delivered to the state under (b) of this section. The department may allow
 3 a credit or refund under AS 43.05.275 for an overpayment of a tax levied by this
 4 section that may be issued in the form of gas or money, as determined under
 5 regulations adopted by the department. If the credit or refund is allowed in terms of
 6 money, the amount of the credit or refund for a month of production for an oil and gas
 7 lease subject to an effective election under (a) of this section is the product of the
 8 number of units of gas by which the producer's delivery to the state was more than the
 9 amount required under (b) of this section, multiplied by the average gross value at the
 10 point of production for each unit of the gas produced by the producer from the lease
 11 during the month other than gas that was not subject to tax or gas that was delivered to
 12 the state under (b) of this section. Interest that is determined as a percentage of the
 13 amount of a tax underpayment or overpayment and a penalty that is a percentage of
 14 the amount of a tax underpayment are calculated as a percentage of the amount of
 15 money determined in this subsection. An amount of gas that was less than the amount
 16 required to be delivered to the state under (b) of this section or an amount of gas that
 17 was more than the amount required to be delivered to the state under (b) of this section
 18 that is adjusted as provided by a gas balancing agreement to which the state is a party
 19 under AS 38.05.020(b)(11) is not subject to assessment under AS 43.05.245 or a credit
 20 or refund under AS 43.05.275. In this subsection, "unit" means a unit of measurement
 21 for gas identified by the department under regulations adopted by the department and
 22 may be expressed as 1,000 cubic feet, 1,000,000 British thermal units, or another
 23 appropriate unit of measurement specified by the department under regulations
 24 adopted by the department.

25 (e) This section does not apply to gas that, under AS 43.55.020(e), is
 26 considered as gas produced from a lease or property for the purpose of AS 43.55.011 -
 27 43.55.180.

28 * **Sec. 42.** AS 43.55.019(a) is amended to read:

29 (a) A producer of oil or gas is allowed a credit against the tax **levied by**
 30 **AS 43.55.011(e)** [DUE UNDER THIS CHAPTER] for cash contributions accepted for

31 (1) direct instruction, research, and educational support purposes,

 8 interest (A) at the rate provided for an underpayment under 26 U.S.C. 6621 (Internal
 9 Revenue Code), as amended, compounded daily, from the date the installment
 10 payment is due until March 31 following the calendar year of production, and (B) as
 11 provided for a delinquent tax under AS 43.05.225 after that March 31; interest accrued
 12 under (A) of this paragraph that remains unpaid after that March 31 is treated as an
 13 addition to tax that bears interest under (B) of this paragraph; an unpaid amount of tax
 14 due under (a)(4) of this section that is not paid when due bears interest as provided for
 15 a delinquent tax under AS 43.05.225;

16 (2) on and after January 1, 2014, an unpaid amount of an installment
 17 payment required under (a)(3), (5), [OR] (6), or (7) of this section that is not paid

 19 6621 (Internal Revenue Code), as amended, compounded daily, from the date the
 20 installment payment is due until March 31 following the calendar year of production,
 21 and (B) as provided for a delinquent tax under AS 43.05.225 after that March 31;
 22 interest accrued under (A) of this paragraph that remains unpaid after that March 31 is
 23 treated as an addition to tax that bears interest under (B) of this paragraph; an unpaid
 24 amount of tax due under (a)(4) of this section that is not paid when due bears interest
 25 as provided for a delinquent tax under AS 43.05.225.

26 * **Sec. 47.** AS 43.55.020(h) is amended to read:

27 (h) Notwithstanding any contrary provision of AS 43.05.280,

28 (1) an overpayment of an installment payment required under (a)(1),
 29 (2), (3), (5), (6), or (7) [(a)(1) - (3), (5) OR (6)] of this section bears interest at the rate
 30 provided for an overpayment under 26 U.S.C. 6621 (Internal Revenue Code), as
 31 amended, compounded daily, from the later of the date the installment payment is due

1 or the date the overpayment is made, until the earlier of

2 (A) the date it is refunded or is applied to an underpayment; or

3 (B) March 31 following the calendar year of production;

4 (2) except as provided under (1) of this subsection, interest with
5 respect to an overpayment is allowed only on any net overpayment of the payments
6 required under (a) of this section that remains after the later of March 31 following the
7 calendar year of production or the date that the statement required under
8 AS 43.55.030(a) is filed;

9 (3) interest is allowed under (2) of this subsection only from a date that
10 is 90 days after the later of March 31 following the calendar year of production or the

12 if the overpayment was refunded within the 90-day period;

13 (4) interest under (2) and (3) of this subsection is paid at the rate and in
14 the manner provided in AS 43.05.225(1).

15 * **Sec. 48.** AS 43.55.020(l) is amended to read:

16 (l) **For oil and gas produced on** [ON] and after January 1, 2014, **and before**
17 **January 1, 2022**, in making settlement with the royalty owner for oil and gas that is
18 taxable under AS 43.55.011, the producer may deduct the amount of the tax paid on
19 taxable royalty oil and gas, or may deduct taxable royalty oil or gas equivalent in
20 value at the time the tax becomes due to the amount of the tax paid. If the total
21 deductions of installment payments of estimated tax for a calendar year exceed the
22 actual tax for that calendar year, the producer shall, before April 1 of the following
23 year, refund the excess to the royalty owner. Unless otherwise agreed between the
24 producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on
25 taxable royalty oil and gas for a calendar year, other than oil and gas the ownership or
26 right to which constitutes a landowner's royalty interest, is considered to be the gross
27 value at the point of production of the taxable royalty oil and gas produced during the
28 calendar year multiplied by a figure that is a quotient, in which

29 (1) the numerator is the producer's total tax liability under
30 **AS 43.55.011(e)(2)** [AS 43.55.011(e)] for the calendar year of production; and

31 (2) the denominator is the total gross value at the point of production

1 of the oil and gas taxable under AS 43.55.011(e) produced by the producer from all
 2 leases and properties in the state during the calendar year.

3 * **Sec. 49.** AS 43.55.020 is amended by adding a new subsection to read:

4 (m) For oil and gas produced on and after January 1, 2022, in making
 5 settlement with the royalty owner for oil and gas that is taxable under AS 43.55.011,
 6 the producer may deduct the amount of the tax paid on taxable royalty oil and gas, or
 7 may deduct taxable royalty oil or gas equivalent in value at the time the tax becomes
 8 due to the amount of the tax paid. If the total deductions of installment payments of
 9 estimated tax for a calendar year exceed the actual tax for that calendar year, the
 10 producer shall, before April 1 of the following year, refund the excess to the royalty
 11 owner. In making settlement with the royalty owner for gas that is taxable under
 12 AS 43.55.014, the producer may deduct the amount of the gas paid as in kind tax on
 13 taxable royalty gas or may deduct the gross value at the point of production of the gas
 14 paid as in-kind tax on taxable royalty gas. Unless otherwise agreed between the
 15 producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on
 16 taxable royalty oil for a calendar year, other than oil the ownership or right to which
 17 constitutes a landowner's royalty interest, is considered to be the gross value at the
 18 point of production of the taxable royalty oil produced during the calendar year
 19 multiplied by a figure that is a quotient, in which

20 (1) the numerator is the producer's total tax liability under
 21 AS 43.55.011(e)(3)(A) for the calendar year of production; and

22 (2) the denominator is the total gross value at the point of production
 23 of the oil taxable under AS 43.55.011(e) produced by the producer from all leases and
 24 properties in the state during the calendar year.

25 * **Sec. 50.** AS 43.55.030(a) is amended to read:

26 (a) A producer that produces oil or gas from a lease or property in the state
 27 during a calendar year, whether or not any tax payment is due under AS 43.55.020(a)
 28 for that oil or gas, shall file with the department on March 31 of the following year a
 29 statement, under oath, in a form prescribed by the department, giving, with other
 30 information required, the following:

31 (1) a description of each lease or property from which oil or gas was

1 produced, by name, legal description, lease number, or accounting codes assigned by
2 the department;

3 (2) the names of the producer and, if different, the person paying the
4 tax, if any;

5 (3) the gross amount of oil and the gross amount of gas produced from
6 each lease or property, **separately identifying the gross amount of gas produced**
7 **from each oil and gas lease to which an effective election under AS 43.55.014(a)**
8 **applies, the amount of gas delivered to the state under AS 43.55.014(b),** and the
9 percentage of the gross amount of oil and gas owned by the producer;

10 (4) the gross value at the point of production of the oil and of the gas
11 produced from each lease or property owned by the producer and the costs of
12 transportation of the oil and gas;

13 (5) the name of the first purchaser and the price received for the oil and
14 for the gas, unless relieved from this requirement in whole or in part by the
15 department;

16 (6) the producer's qualified capital expenditures, as defined in
17 AS 43.55.023, other lease expenditures under AS 43.55.165, and adjustments or other
18 payments or credits under AS 43.55.170;

19 (7) the production tax values of the oil and gas under **AS 43.55.160(a)**
20 **or of the oil under AS 43.55.160(h), as applicable** [AS 43.55.160];

21 (8) any claims for tax credits to be applied; and

22 (9) calculations showing the amounts, if any, that were or are due
23 under AS 43.55.020(a) and interest on any underpayment or overpayment.

24 * **Sec. 51.** AS 43.55.160(a) is amended to read:

25 (a) **For oil and gas produced before January 1, 2022, except** [EXCEPT] as
26 provided in (b), (f), and (g) of this section, for the purposes of

27 (1) **AS 43.55.011(e)(1) and (2)** [AS 43.55.011(e)], the annual
28 production tax value of taxable oil, gas, or oil and gas produced during a calendar year
29 in a category for which a separate annual production tax value is required to be
30 calculated under this paragraph is the gross value at the point of production of that oil,
31 gas, or oil and gas taxable under AS 43.55.011(e), less the producer's lease

1 expenditures under AS 43.55.165 for the calendar year applicable to the oil, gas, or oil
 2 and gas in that category produced by the producer during the calendar year, as
 3 adjusted under AS 43.55.170; a separate annual production tax value shall be
 4 calculated for

5 (A) oil and gas produced from leases or properties in the state
 6 that include land north of 68 degrees North latitude, other than gas produced
 7 before 2022 and used in the state;

8 (B) oil and gas produced from leases or properties in the state
 9 outside the Cook Inlet sedimentary basin, no part of which is north of 68
 10 degrees North latitude and that qualifies for a tax credit under AS 43.55.024(a)
 11 and (b); this subparagraph does not apply to

12 (i) gas produced before 2022 and used in the state; or

13 (ii) oil and gas subject to AS 43.55.011(p);

14 (C) oil produced before 2022 from each lease or property in the
 15 Cook Inlet sedimentary basin;

16 (D) gas produced before 2022 from each lease or property in
 17 the Cook Inlet sedimentary basin;

18 (E) gas produced before 2022 from each lease or property in
 19 the state outside the Cook Inlet sedimentary basin and used in the state, other
 20 than gas subject to AS 43.55.011(p);

21 (F) oil and gas subject to AS 43.55.011(p) produced from
 22 leases or properties in the state;

23 (G) oil and gas produced from leases or properties in the state
 24 no part of which is north of 68 degrees North latitude, other than oil or gas
 25 described in (B), (C), (D), (E), or (F) of this paragraph;

26 (2) AS 43.55.011(g), for oil and gas produced before January 1, 2014,
 27 the monthly production tax value of the taxable

28 (A) oil and gas produced during a month from leases or
 29 properties in the state that include land north of 68 degrees North latitude is the
 30 gross value at the point of production of the oil and gas taxable under
 31 AS 43.55.011(e) and produced by the producer from those leases or properties,

1 less 1/12 of the producer's lease expenditures under AS 43.55.165 for the
2 calendar year applicable to the oil and gas produced by the producer from
3 those leases or properties, as adjusted under AS 43.55.170; this subparagraph
4 does not apply to gas subject to AS 43.55.011(o);

5 (B) oil and gas produced during a month from leases or
6 properties in the state outside the Cook Inlet sedimentary basin, no part of
7 which is north of 68 degrees North latitude, is the gross value at the point of
8 production of the oil and gas taxable under AS 43.55.011(e) and produced by
9 the producer from those leases or properties, less 1/12 of the producer's lease
10 expenditures under AS 43.55.165 for the calendar year applicable to the oil and
11 gas produced by the producer from those leases or properties, as adjusted under
12 AS 43.55.170; this subparagraph does not apply to gas subject to
13 AS 43.55.011(o);

14 (C) oil produced during a month from a lease or property in the
15 Cook Inlet sedimentary basin is the gross value at the point of production of
16 the oil taxable under AS 43.55.011(e) and produced by the producer from that
17 lease or property, less 1/12 of the producer's lease expenditures under
18 AS 43.55.165 for the calendar year applicable to the oil produced by the
19 producer from that lease or property, as adjusted under AS 43.55.170;

20 (D) gas produced during a month from a lease or property in
21 the Cook Inlet sedimentary basin is the gross value at the point of production
22 of the gas taxable under AS 43.55.011(e) and produced by the producer from
23 that lease or property, less 1/12 of the producer's lease expenditures under
24 AS 43.55.165 for the calendar year applicable to the gas produced by the
25 producer from that lease or property, as adjusted under AS 43.55.170;

26 (E) gas produced during a month from a lease or property
27 outside the Cook Inlet sedimentary basin and used in the state is the gross
28 value at the point of production of that gas taxable under AS 43.55.011(e) and
29 produced by the producer from that lease or property, less 1/12 of the
30 producer's lease expenditures under AS 43.55.165 for the calendar year
31 applicable to that gas produced by the producer from that lease or property, as

1 adjusted under AS 43.55.170.

2 * **Sec. 52.** AS 43.55.160(e) is amended to read:

3 (e) Any adjusted lease expenditures under AS 43.55.165 and 43.55.170 that
 4 would otherwise be deductible by a producer in a calendar year but whose deduction
 5 would cause an annual production tax value calculated under (a)(1) or (h) of this
 6 section of taxable oil or gas produced during the calendar year to be less than zero
 7 may be used to establish a carried-forward annual loss under AS 43.55.023(b).
 8 However, the department shall provide by regulation a method to ensure that, for a
 9 period for which a producer's tax liability is limited by AS 43.55.011(j), (k), (o), or
 10 (p), any adjusted lease expenditures under AS 43.55.165 and 43.55.170 that would
 11 otherwise be deductible by a producer for that period but whose deduction would
 12 cause a production tax value calculated under (a)(1)(C), (D), (E), [OR] (F), or (h)(3)
 13 of this section to be less than zero are accounted for as though the adjusted lease
 14 expenditures had first been used as deductions in calculating the production tax values
 15 of oil or gas subject to any of the limitations under AS 43.55.011(j), (k), (o), or (p) that
 16 have positive production tax values so as to reduce the tax liability calculated without
 17 regard to the limitation to the maximum amount provided for under the applicable
 18 provision of AS 43.55.011(j), (k), (o), or (p). Only the amount of those adjusted lease
 19 expenditures remaining after the accounting provided for under this subsection may be
 20 used to establish a carried-forward annual loss under AS 43.55.023(b). In this
 21 subsection, "producer" includes "explorer."

22 * **Sec. 53.** AS 43.55.160(f) is amended to read:

23 (f) On and after January 1, 2014, in the calculation of an annual production tax
 24 value of a producer under (a)(1)(A) or (h)(1) [(a)(1)] of this section, the gross value at
 25 the point of production of oil or gas produced from a lease or property north of 68
 26 degrees North latitude meeting one or more of the following criteria is reduced by 20
 27 percent: (1) the oil or gas is produced from a lease or property that does not contain a
 28 lease that was within a unit on January 1, 2003; (2) the oil or gas is produced from a
 29 participating area established after December 31, 2011, that is within a unit formed
 30 under AS 38.05.180(p) before January 1, 2003, if the participating area does not
 31 contain a reservoir that had previously been in a participating area established before

1 December 31, 2011; (3) the oil or gas is produced from acreage that was added to an
 2 existing participating area by the Department of Natural Resources on and after
 3 January 1, 2014, and the producer demonstrates to the department that the volume of
 4 oil or gas produced is from acreage added to an existing participating area. This
 5 subsection does not apply to gas produced before 2022 that is used in the state **or to**
 6 **gas produced on and after January 1, 2022.** A reduction under this subsection may
 7 not reduce the gross value at the point of production below zero. In this subsection,
 8 "participating area" means a reservoir or portion of a reservoir producing or
 9 contributing to production as approved by the Department of Natural Resources.

10 * **Sec. 54.** AS 43.55.160(g) is amended to read:

11 (g) On and after January 1, 2014, in addition to the reduction under (f) of this
 12 section, in the calculation of an annual production tax value of a producer under
 13 **(a)(1)(A) or (h)(1)** [(a)(1)] of this section, the gross value at the point of production of
 14 oil or gas produced from a lease or property **north of 68 degrees North latitude** that
 15 does not contain a lease that was within a unit on January 1, 2003, is reduced by 10
 16 percent if the oil or gas is produced from a unit made up solely of leases that have a
 17 royalty share of more than 12.5 percent in amount or value of the production removed
 18 or sold from the lease as determined under AS 38.05.180(f). This subsection does not
 19 apply if the royalty obligation for one or more of the leases in the unit has been
 20 reduced to 12.5 percent or less under AS 38.05.180(j) for all or part of the calendar
 21 year for which the annual production tax value is calculated. This subsection does not
 22 apply to gas produced before 2022 that is used in the state **or to gas produced on and**
 23 **after January 1, 2022.** A reduction under this subsection may not reduce the gross
 24 value at the point of production below zero.

25 * **Sec. 55.** AS 43.55.160 is amended by adding a new subsection to read:

26 (h) For oil produced on and after January 1, 2022, except as provided in (b),
 27 (f), and (g) of this section, for the purposes of AS 43.55.011(e)(3), the annual
 28 production tax value of oil taxable under AS 43.55.011(e) produced by a producer
 29 during a calendar year

30 (1) from leases or properties in the state that include land north of 68
 31 degrees North latitude is the gross value at the point of production of that oil, less the

1 producer's lease expenditures under AS 43.55.165 for the calendar year incurred to
2 explore for, develop, or produce oil and gas deposits located in the state north of 68
3 degrees North latitude or located in leases or properties in the state that include land
4 north of 68 degrees North latitude, as adjusted under AS 43.55.170;

5 (2) before or during the last calendar year under AS 43.55.024(b) for
6 which the producer could take a tax credit under AS 43.55.024(a), from leases or
7 properties in the state outside the Cook Inlet sedimentary basin, no part of which is
8 north of 68 degrees North latitude, other than leases or properties subject to
9 AS 43.55.011(p), is the gross value at the point of production of that oil, less the
10 producer's lease expenditures under AS 43.55.165 for the calendar year incurred to
11 explore for, develop, or produce oil and gas deposits located in the state outside the
12 Cook Inlet sedimentary basin and south of 68 degrees North latitude, other than oil
13 and gas deposits located in a lease or property that includes land north of 68 degrees
14 North latitude or that is subject to AS 43.55.011(p) or, before January 1, 2027, from
15 which commercial production has not begun, as adjusted under AS 43.55.170;

16 (3) from leases or properties subject to AS 43.55.011(p) is the gross
17 value at the point of production of that oil, less the producer's lease expenditures under
18 AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil and
19 gas deposits located in leases or properties subject to AS 43.55.011(p) or, before
20 January 1, 2027, located in leases or properties in the state outside the Cook Inlet
21 sedimentary basin, no part of which is north of 68 degrees North latitude from which
22 commercial production has not begun, as adjusted under AS 43.55.170;

23 (4) from leases or properties in the state no part of which is north of 68
24 degrees North latitude, other than leases or properties subject to (2) or (3) of this
25 subsection, is the gross value at the point of production of that oil less the producer's
26 lease expenditures under AS 43.55.165 for the calendar year incurred to explore for,
27 develop, or produce oil and gas deposits located in the state south of 68 degrees North
28 latitude, other than oil and gas deposits located in a lease or property in the state that
29 includes land north of 68 degrees North latitude, and excluding lease expenditures that

31 (3) of this subsection if not prohibited by (b) of this section, as adjusted under

1 AS 43.55.170.

2 * **Sec. 56.** AS 43.55.165(e) is amended to read:

3 (e) For purposes of this section, lease expenditures do not include

4 (1) depreciation, depletion, or amortization;

5 (2) oil or gas royalty payments, production payments, lease profit
6 shares, or other payments or distributions of a share of oil or gas production, profit, or
7 revenue, except that a producer's lease expenditures applicable to oil and gas produced
8 from a lease issued under AS 38.05.180(f)(3)(B), (D), or (E) include the share of net
9 profit paid to the state under that lease;

10 (3) taxes based on or measured by net income;

11 (4) interest or other financing charges or costs of raising equity or debt
12 capital;

13 (5) acquisition costs for a lease or property or exploration license;

14 (6) costs arising from fraud, wilful misconduct, gross negligence,
15 violation of law, or failure to comply with an obligation under a lease, permit, or
16 license issued by the state or federal government;

17 (7) fines or penalties imposed by law;

18 (8) costs of arbitration, litigation, or other dispute resolution activities
19 that involve the state or concern the rights or obligations among owners of interests in,
20 or rights to production from, one or more leases or properties or a unit;

21 (9) costs incurred in organizing a partnership, joint venture, or other
22 business entity or arrangement;

23 (10) amounts paid to indemnify the state; the exclusion provided by
24 this paragraph does not apply to the costs of obtaining insurance or a surety bond from
25 a third-party insurer or surety;

26 (11) surcharges levied under AS 43.55.201 or 43.55.300;

27 (12) an expenditure otherwise deductible under (b) of this section that
28 is a result of an internal transfer, a transaction with an affiliate, or a transaction
29 between related parties, or is otherwise not an arm's length transaction, unless the
30 producer establishes to the satisfaction of the department that the amount of the
31 expenditure does not exceed the fair market value of the expenditure;

1 (13) an expenditure incurred to purchase an interest in any corporation,
2 partnership, limited liability company, business trust, or any other business entity,
3 whether or not the transaction is treated as an asset sale for federal income tax
4 purposes;

5 (14) a tax levied under AS 43.55.011 or 43.55.014;

6 (15) costs incurred for dismantlement, removal, surrender, or
7 abandonment of a facility, pipeline, well pad, platform, or other structure, or for the
8 restoration of a lease, field, unit, area, tract of land, body of water, or right-of-way in
9 conjunction with dismantlement, removal, surrender, or abandonment; a cost is not
10 excluded under this paragraph if the dismantlement, removal, surrender, or
11 abandonment for which the cost is incurred is undertaken for the purpose of replacing,
12 renovating, or improving the facility, pipeline, well pad, platform, or other structure;

13 (16) costs incurred for containment, control, cleanup, or removal in
14 connection with any unpermitted release of oil or a hazardous substance and any
15 liability for damages imposed on the producer or explorer for that unpermitted release;
16 this paragraph does not apply to the cost of developing and maintaining an oil
17 discharge prevention and contingency plan under AS 46.04.030;

18 (17) costs incurred to satisfy a work commitment under an exploration
19 license under AS 38.05.132;

20 (18) that portion of expenditures, that would otherwise be qualified
21 capital expenditures, as defined in AS 43.55.023, incurred during a calendar year that
22 are less than the product of \$0.30 multiplied by the total taxable production from each
23 lease or property, in BTU equivalent barrels, during that calendar year, except that,
24 when a portion of a calendar year is subject to this provision, the expenditures and
25 volumes shall be prorated within that calendar year;

26 (19) costs incurred for repair, replacement, or deferred maintenance of
27 a facility, a pipeline, a structure, or equipment, other than a well, that results in or is
28 undertaken in response to a failure, problem, or event that results in an unscheduled
29 interruption of, or reduction in the rate of, oil or gas production; or costs incurred for
30 repair, replacement, or deferred maintenance of a facility, a pipeline, a structure, or
31 equipment, other than a well, that is undertaken in response to, or is otherwise

1 associated with, an unpermitted release of a hazardous substance or of gas; however,
 2 costs under this paragraph that would otherwise constitute lease expenditures under (a)
 3 and (b) of this section may be treated as lease expenditures if the department
 4 determines that the repair or replacement is solely necessitated by an act of war, by an
 5 unanticipated grave natural disaster or other natural phenomenon of an exceptional,
 6 inevitable, and irresistible character, the effects of which could not have been
 7 prevented or avoided by the exercise of due care or foresight, or by an intentional or
 8 negligent act or omission of a third party, other than a party or its agents in privity of
 9 contract with, or employed by, the producer or an operator acting for the producer, but
 10 only if the producer or operator, as applicable, exercised due care in operating and
 11 maintaining the facility, pipeline, structure, or equipment, and took reasonable
 12 precautions against the act or omission of the third party and against the consequences
 13 of the act or omission; in this paragraph,

14 (A) "costs incurred for repair, replacement, or deferred
 15 maintenance of a facility, a pipeline, a structure, or equipment" includes costs
 16 to dismantle and remove the facility, pipeline, structure, or equipment that is
 17 being replaced;

18 (B) "hazardous substance" has the meaning given in
 19 AS 46.03.826;

20 (C) "replacement" includes renovation or improvement;

21 (20) costs incurred to construct, acquire, or operate a refinery or crude
 22 oil topping plant, regardless of whether the products of the refinery or topping plant
 23 are used in oil or gas exploration, development, or production operations; however, if
 24 a producer owns a refinery or crude oil topping plant that is located on or near the
 25 premises of the producer's lease or property in the state and that processes the
 26 producer's oil produced from that lease or property into a product that the producer
 27 uses in the operation of the lease or property in drilling for or producing oil or gas, the
 28 producer's lease expenditures include the amount calculated by subtracting from the
 29 fair market value of the product used the prevailing value, as determined under
 30 AS 43.55.020(f), of the oil that is processed;

31 (21) costs of lobbying, public relations, public relations advertising, or

1 policy advocacy.

2 * **Sec. 57.** AS 43.55.900(10) is amended to read:

3 (10) "gas processing plant" means a facility that

4 (A) extracts and recovers liquid hydrocarbons from a gaseous
5 mixture of hydrocarbons by gas processing; and

14 automatic custody transfer meter or device, "point of production" means the
15 mechanism or device to measure the quantity of oil that has been approved by
16 the department for that purpose, through which the oil is tendered and accepted
17 in a condition of pipeline quality into the facilities of a carrier pipeline or other
18 transportation carrier or into a field topping plant;

19 (B) for gas [, OTHER THAN GAS DESCRIBED IN (C) OF
20 THIS PARAGRAPH,] that is

21 (i) not subjected to or recovered by mechanical

 13 NOT ACCURATELY METER THE GAS AFTER THE GAS PROCESSING
 14 AND BEFORE THE GAS TREATMENT, THE FIRST POINT WHERE GAS
 15 PROCESSING IS COMPLETED OR WHERE GAS TREATMENT BEGINS,
 16 WHICHEVER IS FURTHER UPSTREAM];

17 * **Sec. 59.** AS 43.55.900 is amended by adding a new paragraph to read:

18 (25) "gas treatment plant" means a facility that performs gas treatment,
 19 regardless of whether the facility also performs gas processing.

20 * **Sec. 60.** AS 43.90.900(18) is amended to read:

24 (b) It is the intent of the legislature that

25 (1) the Alaska Gasline Development Corporation, in its new placement
 26 as an independent public corporation of the state, shall be treated for all purposes as
 27 the transfer of a corporation within the state and not as the creation of a new entity by
 28 the State of Alaska;

29 (2) the Board of Directors of the Alaska Gasline Development
 30 Corporation commit to governing the Alaska Gasline Development Corporation so as
 31 to affect positively as many Alaskans as possible, including those in rural and coastal

1 communities, and to extend opportunities for all Alaskans to benefit from the natural

 6 uses, including vehicular traffic.

7 * **Sec. 66.** The uncodified law of the State of Alaska is amended by adding a new section to
 8 read:

9 REPORT AND RECOMMENDATIONS BY THE COMMISSIONER OF
 10 NATURAL RESOURCES ON THE DELIVERY AND AVAILABILITY OF NORTH
 11 SLOPE NATURAL GAS IN THE STATE; IDENTIFICATION OF RISKS AND
 12 RECOMMENDATIONS FOR MITIGATION. (a) The commissioner of natural resources in
 13 consultation with the Alaska Gasline Development Corporation shall prepare and make
 14 available to the legislature a report on a plan and alternatives to make North Slope natural gas
 15 available for delivery and use in the state. The report must address

16 (1) the means by which North Slope natural gas may be delivered for use in
 17 the state;

18 (2) the anticipated benefits, risks, and liabilities to the state associated with the
 19 sale by the state to utilities and other customers in the state of natural gas received by the state
 20 as royalty in kind or as payment of tax;

21 (3) the effect and consequences, including the fiscal effect and liability to third
 22 parties, of the state's transport of a reduced amount of natural gas south of an in-state delivery
 23 point or underutilizing capacity in a liquefied natural gas plant;

24 (4) the costs, benefits, and risks associated with building a pipeline with a
 25 mainline diameter larger than 42 inches, including the effect of the increased diameter on
 26 compression, fuel, and other costs; the anticipated allocation of the cost of an increased
 27 diameter among project participants and the options for and effects of the state or participants
 28 in the project funding the increased diameter; a quantification of the potential benefits from
 29 the increased diameter that may include increased exploration activity by parties and
 30 nonparties to the project and increased royalties and taxes from additional production
 31 transported in the increased capacity; and whether natural gas transported in the additional

1 capacity is likely to be produced from federal or state land; and

2 (5) other issues the commissioner of natural resources determines are relevant
3 to the delivery and use of North Slope natural gas in the state and should be considered by the
4 legislature.

5 (b) In conjunction with the report in (a) of this section, the commissioner of natural
6 resources shall recommend the means for eliminating or minimizing the risks and liabilities
7 identified in the report.

8 (c) The commissioner of natural resources shall make the report and
9 recommendations required by this section available to the legislature on or before the date a
10 firm transportation services agreement in a North Slope natural gas project to which the state
11 is a party is submitted to the legislature for approval.

12 (d) In this section, "North Slope natural gas project" has the meaning given in
13 AS 38.05.965, as amended by sec. 27 of this Act.

14 * **Sec. 67.** The uncodified law of the State of Alaska is amended by adding a new section to
15 read:

16 **REQUESTING THE GOVERNOR TO ESTABLISH AN ADVISORY PLANNING**
17 **GROUP.** (a) The legislature requests the governor to establish an advisory planning group
18 under AS 44.19.145 to advise the governor on municipal involvement in a North Slope
19 natural gas project. Members of the advisory planning group may include representatives of
20 municipalities, the commissioner of natural resources, the commissioner of revenue,
21 representatives of oil and gas and gas only lessees on the North Slope, and representatives of
22 other persons expected to be directly involved in the development of a North Slope natural
23 gas project.

24 (b) The advisory planning group shall review available information, hold public
25 meetings, and provide annual reports by December 15 of each year to the governor that
26 include

27 (1) the potential impact and benefits of new infrastructure for North Slope
28 natural gas development, whether designed to provide natural gas for in-state sale or for
29 export, or both, on communities in the state, including consideration of tax structure under
30 AS 29.45 and AS 43.56, and consideration of other payments before construction of new
31 infrastructure associated with North Slope natural gas development;

1 (2) recommendations for changes to the oil and gas exploration, production,
2 and pipeline transportation property taxes under AS 43.56 related to infrastructure for
3 commercialization of natural gas that would facilitate development of a major natural gas
4 project and mitigate financial impacts to communities affected by development of a North
5 Slope natural gas project;

6 (3) recommendations for changes to AS 29.45.080 related to the
7 commercialization of natural gas that would facilitate development of a North Slope natural
8 gas project and mitigate financial impacts to communities affected by a North Slope natural
9 gas project;

10 (4) recommendations for legislative or other options to minimize the financial
11 impact to communities in proximity to North Slope natural gas project infrastructure during
12 construction of a natural gas pipeline and associated infrastructure; and

13 (5) recommendations on the impact and benefits to communities not in
14 proximity to a North Slope natural gas project.

15 (c) In this section, "North Slope natural gas project" has the meaning given in
16 AS 38.05.965, as amended by sec. 27 of this Act.

17 * **Sec. 68.** The uncodified law of the State of Alaska is amended by adding a new section to
18 read:

19 **PLAN AND RECOMMENDATIONS TO THE LEGISLATURE ON**
20 **INFRASTRUCTURE NEEDED TO DELIVER AFFORDABLE ENERGY TO AREAS IN**
21 **THE STATE THAT DO NOT HAVE DIRECT ACCESS TO A NORTH SLOPE NATURAL**
22 **GAS PIPELINE.** (a) The Alaska Energy Authority, in consultation with the Alaska Gasline
23 Development Corporation, the Alaska Industrial Development and Export Authority, and the
24 Department of Revenue, shall, after considering the state energy policy under AS 44.99.115
25 and sec. 1, ch. 82, SLA 2010, develop a plan for developing infrastructure to deliver more
26 affordable energy to areas of the state that are not expected to have direct access to a North
27 Slope natural gas pipeline. The plan must identify ownership options, different energy
28 sources, including fossil fuels, hydro projects, tidal, and other alternative energy sources, and
29 describe and recommend the means for generating, delivering, receiving, and storing energy
30 in the most cost-efficient manner. For those citizens for whom there is no economically viable
31 infrastructure available, the plan must recommend the means for directly underwriting the

1 energy costs of the citizens to make their energy costs more affordable. The Alaska Energy
 2 Authority may consider the development of regional energy systems that can receive and store
 3 bulk fuel in quantity and distribute that fuel as needed within the region.

4 (b) The Alaska Energy Authority, in consultation with the Department of Revenue,
 5 shall recommend a plan for funding the design, development, and construction of the required
 6 infrastructure and may identify a source of rent, royalty, income, or tax received by the state
 7 that may be appropriated by the legislature to implement the plan.

8 (c) The Alaska Energy Authority shall provide the plan and suggested legislation for
 9 the design, development, construction, and financing of the required infrastructure to the
 10 legislature before January 1, 2017.

11 * **Sec. 69.** The uncodified law of the State of Alaska is amended by adding a new section to
 12 read:

13 DEVELOPMENT OF A PLAN FOR MUNICIPALITIES, REGIONAL
 14 CORPORATIONS, AND RESIDENTS TO PARTICIPATE IN THE OWNERSHIP OF A
 15 NORTH SLOPE NATURAL GAS PIPELINE; IDENTIFICATION OF AND REPORT ON
 16 FINANCING OPTIONS FOR STATE OWNERSHIP AND PARTICIPATION IN A
 17 NORTH SLOPE NATURAL GAS PROJECT. (a) The commissioner of revenue shall identify
 18 and report to the legislature on a range of financing options for state acquisition of an
 19 ownership interest and participation in a North Slope natural gas project. The report must
 20 include a description of the risk associated with each option and the effect of each option on
 21 the bonding capacity and bond rating of the state. In this subsection, "North Slope natural gas
 22 project" has the meaning given in AS 38.05.965, as amended by sec. 27 of this Act.

23 (b) The commissioner shall make an interim draft of the report described in (a) of this
 24 section available to the legislature on the first day of the First Regular Session of the Twenty-
 25 Ninth Alaska State Legislature, and a final report at the time the commissioner of natural
 26 resources submits the first agreement or contract to the legislature for approval under
 27 AS 38.05.020(b)(11), enacted by sec. 18 of this Act.

28 (c) At the time the commissioner of natural resources submits the first agreement or
 29 contract to the legislature for approval under AS 38.05.020(b)(11), enacted by sec. 18 of this
 30 Act, the commissioner of revenue shall present a plan and suggested legislation to allow a
 31 municipality, regional corporation, or resident of the state to participate as a co-owner in a

1 North Slope natural gas pipeline. The plan must include the recommendations and analysis by
2 the commissioner as to

3 (1) the means by which a municipality, regional corporation, or resident may
4 invest in the North Slope natural gas pipeline; for a resident, the means may include providing
5 an option to designate an amount of a permanent fund dividend to be deducted for the
6 investment;
