FISCAL NOTE ANALYSIS #5

STATE OF ALASKA
2014 LEGISLATIVE SESSION

BILL NO. SCS CSHB 140(JUD)

Analysis

Analysis/Assumptions: This legislation would require the development of estimated annual costs to the state agency to implement a proposed regulation as well as for private persons, state agencies, and municipalities to comply with the proposed regulations. This cost information is to be furnished along with the notice for the regulation. This bill requires the Department to produce a "good faith" estimate, which could be difficult to gauge the legislative intent regarding the level of detail for a cost estimate. The Department has assumed that any proposed regulation package that results in a cost savings to regulated entities would also need to be calculated and included in the public notice.

Personal Services:

The Division of Administration would need one new Economist III position in Juneau to analyze data and calculate the estimated costs to implement proposed regulations for all divisions within the Department.

Travel:

Estimates quarterly travel to Anchorage for meetings related to pending regulation packages.

Services:

Contractual assistance is required each year for the development of cost estimates for the operating divisions for preparing the regulation packages including data collection, analysis, and reporting of findings. The Department estimates that 15 regulation packages will be prepared annually among the four operating divisions.

Commodities:

The economist position support costs, including furniture and computers (one-time costs for new positions); ongoing standard office supplies.
