FISCAL NOTE ANALYSIS #4

**STATE OF ALASKA
2013 LEGISLATIVE SESSION**

BILL NO. CSSB 56(JUD)

Analysis

This bill would adjust the penalties related to certain offenses involving possession of schedule IA and IIA controlled substances.

The sections of the bill relating to possession of specific quantities of a controlled substance will affect the analysis practices within the Scientific Crime Detection Laboratory (SCDL). The minimum thresholds established by this bill will require testing of enough of the substance to meet the threshold.

For example, whereas the SCDL currently may need to positively identify only one tablet to determine whether it was a prohibited substance under the law, analysis of at least 15 tablets (if present) may now need to be analyzed to meet the threshold and burden of proof.

Though there will be some impact to the workload, it is expected that the SCDL can manage it within its current staffing. Therefore, a zero fiscal note is being submitted.
