FISCAL NOTE ANALYSIS #2

**STATE OF ALASKA
2014 LEGISLATIVE SESSION**

BILL NO. SB 145

Analysis

Sections 1-2, 4, 8-11 of this bill allows the survivors of members who die while performing qualified military service access to benefits they would have been provided had the member resumed employment and then died. This bill also subjects differential wage payments (any wages paid by the employer to a service member while on active duty) to the Internal Revenue Service (IRS) maximum contribution limits under IRS code 415(c).

Since the HEART Act inception in 2009 the PERS, TRS and JRS have had no members die while performing qualified military service. This bill has no fiscal impact on the funding or administration of the plans and therefore DRB submits a zero fiscal note.

RE: HEART Act Survivor Benefits in the Alaska Retirement Systems Actuarial Valuations

Dear Kathy:

As requested, we are providing you this letter to document our correspondence regarding the application of the 2008 HEART Act in the actuarial valuations of the State of Alaska. Specifically, you have asked how we are treating retirement system members who are called to active duty and die while performing qualified military service. Under the requirements of the HEART Act, the eligible survivors would be eligible for death benefits under the retirement system as if the member had resumed employment and plan membership the day before death.

As you have confirmed, according to your records, no employees have died in this manner since 2009. In addition, our mortality assumptions are updated every four years to reflect actual death experience of members that are eligible to receive death benefits under the retirement systems. On the basis of your experience and our experience analysis, we expect any future impact on the retirement systems to be de minimus for actuarial valuation purposes. If in performing a future actuarial experience analysis we find that this mortality experience is not de minimus, we will recommend adjusting our mortality assumptions and request specific member data to capture and recognize expected future liability of these survivor benefits.

Please let us know if you need any further information.

Sincerely,

A handwritten signature in black ink that reads "David H. Sliskinsky". The signature is written in a cursive style.
