FISCAL NOTE ANALYSIS

STATE OF ALASKA
2016 LEGISLATIVE SESSION**Analysis**

This bill establishes the Oil and Gas Infrastructure Development program and a fund associated with that program. The program and fund will provide the Alaska Industrial Development and Export Authority (AIDEA) with new tools to support the development of the oil and gas sector of the economy. Specifically, the new fund provides the authority to finance oil and gas infrastructure development through project financing, issuing bonds, bond guarantees, and other beneficial financial mechanisms. The new fund will allow AIDEA to make needed investments in the oil and gas sector, particularly to small and medium-sized companies, and provide capital needed for continued infrastructure development while earning a return for the agency. Implementing the program will involve minor modification of regulations, which will be carried out in-house as was done with the Arctic Infrastructure Development Fund.
