## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2016 LEGISLATIVE SESSION

## Analysis

SB113 establishes immunity for physicians or member of the medical team, manufacturers and distributors in the case of injury or death of a terminally ill patient from the use of an investigational drug, biological product, device, or related treatment, provided informed consent was obtained from the patient and notice of immunity was given in advance.

This legislation prohibits disciplinary action against physicians by the State Medical Board for prescribing, dispensing or administering an investigational drug, biological product or device to terminally ill patients who have considered all other treatment options, approved by the FDA, and are ineligible or unable to participate in a current clinical trial.

SB113 prevents the Department from requiring a licensed entity to increase services for the sole purpose of accommodating a physician's practice of prescribing, dispensing, or administering investigational drugs as provided.

This legislation amends the statute limiting the sale and distribution of new drugs so as not to apply to physicians prescribing or administering investigational drugs under the conditions established in Section 1.

The Division of Corporations, Business, and Professional Licensing does not anticipate fiscal impact from this legislation.
