

# Fiscal Note

State of Alaska  
2016 Legislative Session

Bill Version:	CSSB 170(RES)
Fiscal Note Number:	2
(S) Publish Date:	4/6/2016

Identifier: SB170CS(RES)-DNR-GGS-3-11-2016  
 Title: DNR FEES FOR GEOLOGICAL SERVICES  
 Sponsor: GIESSEL  
 Requester: Senate Finance

Department: Department of Natural Resources  
 Appropriation: Fire Suppression, Land & Water Resources  
 Allocation: Geological & Geophysical Surveys  
 OMB Component Number: 1031

**Expenditures/Revenues**

Note: Amounts do not include inflation unless otherwise noted below. (Thousands of Dollars)

	FY2017	Included in	Out-Year Cost Estimates					
	Appropriation Requested	Governor's FY2017 Request	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022

**Estimated SUPPLEMENTAL (FY2016) cost:** 0.0 *(separate supplemental appropriation required)*  
*(discuss reasons and fund source(s) in analysis section)*

**Estimated CAPITAL (FY2017) cost:** 0.0 *(separate capital appropriation required)*  
*(discuss reasons and fund source(s) in analysis section)*

**ASSOCIATED REGULATIONS**

Does the bill direct, or will the bill result in, regulation changes adopted by your agency? yes  
 If yes, by what date are the regulations to be adopted, amended or repealed? 02/01/17

**Why this fiscal note differs from previous version:**

Revised to include revenue estimates.

Prepared By: Steven Masterman  
 Division: Division of Geological & Geophysical Surveys  
 Approved By: Marty Rutherford, Acting Commissioner  
 Agency: Department of Natural Resources

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2016 LEGISLATIVE SESSION

## Analysis

This bill modifies statute **AS 41.08.030 Printing and Distribution of Reports**, and includes a new section **AS 41.08.045 Fees for facilities, equipment, products and services** to the statutes governing the Division of Geological & Geophysical Surveys (DGGGS). This revision and new section provide the division authority to charge fees for products and services provided by the division at the new Geological Material Center (GMC) in Anchorage.

The new center is a greatly improved, expanded, and upgraded facility when compared to the old location in Eagle River. Expectedly, operating and maintenance costs associated with this state-of-the-art facility have substantially increased, and providing a sustainable funding mechanism for the facility through charging for services has been planned since the project's conceptual design.

It is DNR's objective to ultimately place the GMC into the public building fund (PBF) managed by the Department of Administration. Current funding is adequate to operate the facility, but is insufficient to allow the facility to enter the PBF. Entering the PBF is advantageous, as it provides the capital for stable long-term operation, maintenance, and upgrades to the facility. Staying outside the PBF exposes the state to unforeseen costly maintenance projects, such as a roof replacement, additional shelving, or other necessary improvements. By initiating fees at the GMC, DGGGS is being proactive to ultimately make the facility primarily user-funded.

The most recent estimate from the Department of Administration is \$400.0 to allow the facility to enter the PBF. Based on visitation rates and our draft fee schedule, receipts are estimated to be between \$150.0 and \$300.0 over the next several years. Over the next decade we will be steadily increasing the amount of seismic geophysical data available from the facility, which will steadily increase revenue. Coupled with increased use of the facility, the expanding collection, and increased range of services offered, we project that over a five year time frame revenues will increase to the level required to enter the PBF. At that time the department will request general fund program receipt authority. Until revenues reach that level, any revenue above the divisions receipt authority will be deposited into the general fund.

Fees will be adopted through the regulatory process. This process generally takes six to nine months to allow for legal review and public comment. As this process will result in revenue generation for the division, there is internal pressure to complete the regulatory process as soon as possible to begin revenue receipt.
