FISCAL NOTE ANALYSIS

STATE OF ALASKA
2016 LEGISLATIVE SESSION

Analysis

This bill transfers management of the Constitutional Budget Reserve to APFC.

For the purposes of this fiscal note, it is assumed -

- earnings are being spent and there would be no change to the CBR principal balance.
- the CBR is invested in the same asset allocation as the Fund.
- this transfer would result in a net increase of assets under management of approximately \$5 billion, or approximately 10% of the total fund.

The projected increase in management fees is based on a 10% increase over the current FY17 Operating Budget APFC Investment Management Fees Allocation of \$148,191,000.

In addition, the bill would allow for an annual draw from the Permanent Fund earnings reserve of up to 5.25% of the average market value of the fund, including earnings reserve, for the first five of the preceding six fiscal years. This draw would be allocated between the Dividend Fund and the General Fund. Managing toward this liability may change the asset allocation of the Permanent Fund, however at this time it is difficult to forecast if it would impact the asset allocation to a degree that would require additional investment staff, accounting staff or related resources.

Anticipated earnings on the CBR have been added to reflect change in revenues.

CBR Projected Revenue Assumptions -

- Callan 10-yr return assumption 6.9%
- Initial transfer occurs on 7/1/16
- Deposit and draws occur on 7/1
- Beginning balance, deposits, and draw amounts provided by Department of Revenue.
