## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2016 LEGISLATIVE SESSION**Analysis****Bill Analysis**

This legislation makes numerous changes to various aspects of the Permanent Fund program, including changes to the dividend calculation and how Fund earnings are used. One provision of this legislation is to reduce the share of minerals bonuses, rents, and royalties that are deposited to the Permanent Fund from 50% to 25% for certain leases. This fiscal note addresses only the impact of the change in mineral royalty deposits to the Permanent Fund; other provisions of the bill are addressed in other fiscal notes.

The Alaska Constitution mandates that 25% of all minerals bonuses, rents, and royalties be deposited into the Permanent Fund. However, for leases issued after February 15, 1980, a higher 50% of bonuses, rents, and royalties are deposited into the Permanent Fund. This legislation would reduce the contribution rate to the Permanent Fund for those leases to the constitutionally mandated 25% effective July 1, 2016.

Based on the Department of Revenue's Spring 2016 production and price assumptions, this provision of the bill would increase deposits to the General Fund by approximately \$38 million to \$58 million annually. This legislation would reduce royalty deposits to the Permanent Fund by the same amount.
