3 "It is the intent of the legislature that the Department of Corrections be prohibited from the  
4 procurement of and contracting with any facility that will be used to house inmates convicted  
5 of sex offenses without first providing notice to and receiving approval from the citizens  
6 living in the communities where the facilities are to be located. The community approval shall  
7 be through a public process in which all affected citizens are provided an opportunity to be  
8 heard. Ultimately the inmates will be released into Alaska communities and it is the intent of  
9 the legislature to help ensure the public safety of citizens in those communities."
