Approved By:	Catherine Reardon, Director	Date:	02/10/17
Agency:	Division of Administrative Services, DCCED		

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2017 LEGISLATIVE SESSION

Analysis

HB 90 provides for an investigative surcharge to be assessed for each professional license holder across the forty-three regulated professions, designed to underwrite the cost of enforcing professional licensing laws, under Title 8 of Alaska Statute.

HB 90 establishes an investigation surcharge so that the surcharge is the same for each licensee and approximately equals the actual investigation costs for all occupations under AS 08. The surcharge would be the funding source for investigative expenses for each professional licensing program. The intent is to reduce the volatile fiscal impact of expensive investigations and appeals of board decisions.

HB 90 removes the definition of regulatory costs and provides definitions for "investigation costs" and "licensing and administrative costs". The funds collected by this surcharge will not be recorded as new revenue. They will be offset by adjusting license fees downward since investigative expenses will no longer factor into a program's general operating expenses. This bill allows only licensing and administrative costs to be used in calculating licensing fees.

Similar to the annual fee analysis for all programs, this legislation will require the agency to annually review the surcharge to determine whether the investigation costs of all occupations are approximately equal to surcharge collections for all licensees.

If the bill passes the division will require \$3.4 to cover legal costs to amend regulations, printing, and postage in the first year.

Professional licensing programs within the Division of Corporations, Business and Professional Licensing are funded by Receipt Supported Services, fund source 1156 Rcpt Svcs (DGF). Licensing fees for each occupation are set per AS 08.01.065 so the total amount of revenue collected approximately equals the occupation's actual regulatory costs.
