## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2018 LEGISLATIVE SESSION

## Analysis

This bill will amend 44.23.020(e) to expand the attorney general's public advocacy function to include Alaska matters before the Federal Energy Regulatory Commission (FERC). By including FERC matters within the attorney general's public advocacy function, the attorney general can request that part of this work be included in its request for Regulatory Commission of Alaska (RCA) receipts. These costs, like all other utility and pipeline regulatory costs that come before the RCA, will then be passed on to the regulated entities.

If passed, this bill will have a positive, but limited fiscal impact on the Department of Law. While this bill may allow the Department of Law to have some FERC related costs addressed by RCA receipts, these RCA receipts are limited by AS 42.06.286(a) making general fund appropriations for FERC matters a continuing necessity. In addition, annual general fund appropriations will continue to be needed to fund the state's defense of FERC matters which cannot be funded by RCA receipts under existing law even with this amendment.
