## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2018 LEGISLATIVE SESSION**Analysis**

This bill authorizes state agencies that receive Federal Tax Information (FTI) to undergo federal background checks as now required in IRS Publication 1075. Background checks would be conducted on all current and new employees at a cost of \$47 for each completed investigation. Employees are fingerprinted and matched against an FBI database, which in turn produces information on municipal, state, and federal criminal history as available. The state statutory language change is required for the FBI to allow the background check of individual employees for this purpose. An updated background check will also be required every ten years.

The Tax Division estimates that 102 employees will be fingerprinted in the first year, and approximately 10 employees in subsequent years. The Tax Division uses FTI to ensure compliance for corporate income tax, motor fuel tax, tobacco tax, and mining tax. It provides an auditing tool that can assist in confirming that the correct amount of tax is paid to the State of Alaska. The loss of FTI could impede audits and possibly allow businesses to escape paying the full amount of taxes due. In addition, FTI is a valuable source of data that can be used to project revenues from new taxes based on income.
