FISCAL NOTE ANALYSIS

STATE OF ALASKA
2017 LEGISLATIVE SESSION**Analysis**

This legislation attempts to limit abuse of opioids through education requirements, awareness efforts, voluntary nonopioid directives, and through enhanced utilization of the controlled substance prescription database.

AS 08.36.070(a) would require the education and training requirements are met before an individual is issued a license, registration, or certificate or before a license, registration, or certificate can be renewed. These license's are a requirement for employment or contracting and would not be a financial obligation of the department.

AS 17.30.200(b) would require daily reporting when controlled substances under federal law are dispensed to the public. The department does not dispense pharmaceuticals to the public and would not have a change in current practice with this section.

There is no anticipated fiscal impacts to the Department of Corrections with passage of this legislation.
