Approved By:	Dr. Michael Johnson, Commissioner	Date:	04/06/17
Agency:	Department of Education & Early Development		

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2017 LEGISLATIVE SESSION

Analysis

Section 1: Amends AS 14.03.127, Funding for Internet services, (a) by increasing the megabits threshold for this program from 10 megabits to 25 megabits per second (mbps). A district in which one or more schools qualify for a discounted rate for Internet services is eligible to receive an amount for each school that is equal to the amount needed to bring the applicant's share to 25 megabits of download a second of the Internet services. This has been implemented through the School Broadband Assistance Grant (School BAG) program as managed by the Department of Education & Early Development's (DEED) Alaska State Library.

In the absence of more current and accurate information, DEED used a Federal Communications Commission-generated list from 2016 which shows that 197 schools are under 25 mbps. The estimated cost to bring the 197 schools up to 25 mbps would be \$16,000.0. This amount could be smaller or larger based on more current information.

Additional contract hours and a technical review of grant applications will be necessary to administer the expanded grant program; \$30.0. In addition, regulations will need to be updated to reflect the increase from 10 mbps to 25 mbps, requiring an additional \$4.0 for legal services costs associated with the regulation changes.
