FISCAL NOTE ANALYSIS

STATE OF ALASKA
2020 LEGISLATIVE SESSION**Analysis**

This bill seeks to amend existing health education law, AS 14.30.360 Health education curriculum; physical activity guidelines, by specifically adding mental health education to the statute. This bill advocates for students to receive on-going education on mental health by 1) explicitly adding mental health to the list of health topics districts are encouraged to include in their K-12 health education programs, and 2) requiring the State Board of Education and Early Development to provide districts with health education standards for instruction in mental health that are developed in consultation with the Department of Health and Social Services (DHSS) and representatives of national and state health organizations.

This fiscal note contains four expenses: 1) In 2021, \$35,000 for a year-long contract with a state or national subject matter expert with experience facilitating the creation of state health education standards, 2) \$60,000 for travel for 20-30 representatives of mental health organizations to convene in Anchorage for two separate two-day meetings, and 3) a one-time increment of \$6.0 for legal services costs associated with producing new regulations. 4) In 2022, \$12,000 for the creation and printing of booklets of the new health education standards for distribution to all 500 schools, all 54 school district offices, and other health education stakeholders.
