Approved By:	Kelly Howell, Administrative Services Director	Date:	01/22/20
Agency:	Office of Management and Budget		

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2020 LEGISLATIVE SESSION**Analysis**

This bill provides the scope and criteria for a registered sex offender to petition to be removed from the registry published on the internet by the Department of Public Safety (DPS), creates three tiering levels to classify the severity of sex offense convictions and the duration for which an offender must register under each, and adds a new registerable offense under AS 12.63.100(7) for offenses committed under AS 11.61.140(a)(6) and (7).

DPS is responsible to maintain the state's central registry of sex offenders under AS 18.65.087. This bill will impact business and technical procedures DPS has in place for managing the registry. It creates a distinction between the central registry maintained by DPS in internal databases and the registry published on the internet which will require DPS to modify systems to continue to process registration information in the central registry while preventing the information from displaying on the published internet registry when an offender successfully petitions the court to be removed from it.

Several programming changes to the central registry application will be needed, including the public sex offender registration website and the state's criminal history repository, in order to capture, store, and process registration information that incorporates the changes in this bill. DPS estimates programming changes will require approximately 500 hours to complete at a cost of \$120 per hour.
