21 (b) If an individual certified or licensed under this chapter determines in the
22 course of a telehealth encounter with a patient that some or all of the encounter will
23 extend beyond the individual's authorized scope of practice, the individual shall advise
24 the patient that the individual is not authorized to provide some or all of the services to
25 the patient, recommend that the patient contact an appropriate provider for the services
26 the individual is not authorized to provide, and limit the encounter to only those
27 services the individual is authorized to provide. The individual certified or licensed
28 under this chapter may not charge for any portion of an encounter that extends beyond
29 the individual's authorized scope of practice.

5 which an individual certified or licensed under this chapter may provide health care
6 services through telehealth.

7 (e) Nothing in this section requires the use of telehealth when an individual

16 (1) behavioral health services;

17 (2) services covered under home and community-based waivers;

18 (3) services covered under state plan options under 42 U.S.C. 1396 -

The department may not decrease the rate of payment for a telehealth service based on the location of the person providing the service, the location of the eligible recipient of the service, the communication method used, or whether the service was provided asynchronously or synchronously.
