FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION**Analysis**

This bill raises the minimum legal age to purchase tobacco and nicotine products from 19 to 21. The bill repeals the current exception for prisoners. The bill retains the exception for electronic cigarettes used for tobacco cessation, if approved by the FDA as a cessation device. The bill strengthens restrictions on underage access by requiring licensed tobacco retailers to verify age at the time of purchase and at delivery when transporting or shipping tobacco products in Alaska.

The bill amends statute to add electronic smoking products to the tobacco excise tax. The bill prohibits online sales of tobacco products to individuals for personal use, likely to address current inconsistencies in state tobacco tax collection. The definition of electronic smoking products would implement a tax on all components of the devices. The bill sets an effective date of January 1, 2022.

This bill affects the Division of Public Health, which is responsible for implementing a comprehensive Tobacco Prevention and Control Program. Since the federal T21 law passed in 2019, the division created a webpage for tobacco retailers with information and resources to assist retailers in complying with the new federal T21 age restrictions.

There is limited programmatic impact and no fiscal impact is foreseen; therefore this is a zero dollar fiscal note.
