FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION**Analysis**

The bill allows the Commissioner of the Department of Natural Resources to adjust the Net Profit Share rate through royalty modification to incentivize additional resource development that may otherwise not be economically viable.

This bill is limited to existing leases that are Net Profit Share Leases (NPSL). Any changes from this bill are assumed to only impact NPSL payments in the future, not retroactively. The proposed bill does not change any programs within the Department of Natural Resources.

Modification of NPSLs has the potential to generate revenue in the form of royalties, taxes, or net profit share agreements. Because it is not possible to predict the economic conditions under which the state would seek royalty modifications of net profit share leases and because the economic considerations of individual leases vary on a case-by-case basis, the revenue impact of this legislation is indeterminate.
