Approved By:	Sylvan Robb, Administrative Services Director	Date:	02/26/21
Agency:	Office of Management and Budget		

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2021 LEGISLATIVE SESSION**Analysis**

This bill allows a health provider to treat, diagnose, and prescribe, dispense, and administer non-controlled substances through telehealth modes of delivery, without first conducting an in-person examination of the patient, if: the provider is licensed, permitted, or certified and in good standing in another jurisdiction; the services are within the provider's scope of practice in the jurisdiction that issued his/her license, permit, or certification; and the provider will refer the patient for services that are beyond his/her scope of practice.

The department is unable to accurately project the cost of implementing the provisions of this bill at this time. Depending on the number of providers, outside of Alaska, that choose to provide telehealth services for Alaska Medicaid Program recipients, the Division of Health Care Services (DHCS) will need additional staff to accommodate the increases in codes for telehealth care; coordinating with the current fiscal agent on provider enrollment; monitoring and evaluating Medicaid authorizations; and working on claims processing and reimbursement for telehealth service providers to ensure compliance with state and federal laws and regulations.
