FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2022 LEGISLATIVE SESSION

BILL NO. 50

Analysis

This bill modifies AS 09.55.010 and adds a new subsection requiring persons incarcerated or under supervision by the Department of Corrections (DOC) to notify the DOC when a petition for a change of name is filed with the Courts. There is no fiscal impact associated with this change.

Additionally, this bill adds AS 12.30.011(d) which creates a presumption that the offender will not appear and pose a danger to the victim, other persons, or the community if the person has repeatedly violated conditions of release (VCOR) in a single case. Based on the current data, there were 180 instances of multiple VCOR's (violations of conditions of release) for the same case that would qualify under this new condition. Assuming each of these instances would result in the person remaining incarcerated, it could potentially increase the daily prison count an average of up to 4 persons per day. Based on the minimal population increase, there is no fiscal impact anticipated as this increase can be absorbed within the department's current capacity and resources.

Lastly, AS 33.05.020, AS 33.16.180 and AS 33.30.013 are amended by adding new subsections requiring the Department of Corrections to notify victim(s) of a probationer, parolee or offender name change upon receiving notice that the probationer, parolee or offender has filed a petition for a change of name under AS 09.55.010. This change will have no fiscal impact as this change can be absorbed within existing resources and capacity.

While it is expected that this legislation may increase the daily offender population, based on the current data available, any increase is expected to be minimal and can be absorbed within the department's existing resources and capacity.
