Agency:	Department of Commerce, Community, and Economic Development		

FISCAL NOTE ANALYSIS

**STATE OF ALASKA
2022 LEGISLATIVE SESSION****Analysis**

SB 202 extends statutory authorization for the existing Renewable Energy Grant Fund program to June 30, 2033. Adoption of the bill will continue program administration by the Alaska Energy Authority (AEA). AEA administers the grant program in consultation with the Renewable Energy Fund Advisory Committee and submits recommendations for the funding of competitively evaluated projects to the Alaska State Legislature. AEA administration includes program management and oversight, grant management, project management, technical support, and accounting.

The costs of administering the program are dependent on (1) program funding levels; (2) volume of active projects in a given year; and (3) technical oversight required for new and existing grants. For FY2023, the budgeted amount for the program is \$1,400.0.

If the bill is adopted, no new grants will be issued from the Renewable Energy Grant Fund. However, the activities and costs of administering existing grants will continue until the active grants and projects are completed and closed.
