Governor's transmittal letter dated January 20:

Dear President Micciche:

Under the authority of Article III, Section 23, of the Alaska Constitution, I am transmitting an Executive Order to separate the Department of Health and Social Services into two departments – the Department of Health and the Department of Family and Community Services. This reorganization is necessary for efficient administration of services for public assistance programs, protection of vulnerable adults and children, behavioral health, and for the administration of grants related to these services.

The Department of Health will have responsibility for administering medical and public assistance programs, disability services, and public health programs. The Department of Family and Community Services will have responsibility for overseeing child welfare services, the Alaska Pioneers' Home and Veterans' Home, delinquency services, foster care, and the state psychiatric hospital.

This reorganization will strengthen outcomes and improve service delivery by enabling the newly mission-focused departments to operate more efficiently. This new structure will improve public health and enhance the state's ability to protect vulnerable adults, children, and senior citizens.

These changes will be effective July 1, 2021. Separately, my administration will be submitting budget amendments to account for the reorganization.

Sincerely,

Governor's transmittal letter dated January 19:

Dear President Micciche:

Under the authority of Article III, Section 18, of the Alaska Constitution, I am transmitting a bill relating to the Alaska permanent fund and the permanent fund dividend.

SENATE JOURNAL

68

January 25, 2021

The bill would establish a new statutory framework for annual spending from the Alaska permanent fund. It provides that five percent of the average market value (POMV) of the permanent fund would be eligible for annual appropriation by the legislature subject to the limitation that an appropriation may not exceed the balance in the earnings reserve account. It would further provide that of the amount available for appropriation – fifty percent of the amount would be available for permanent fund dividends and the remaining fifty percent would be available for appropriation to the general fund.

The bill would further provide that a special statewide election be held to take an advisory vote of qualified voters to advise the legislature on whether the statutory changes accomplished by this bill should continue to be the state's law regarding spending from the permanent fund. The inclusion of an advisory vote ensures that Alaska residents have a voice in the decisions we make regarding the permanent fund.

I propose this measure in order to resolve the current conflict between the statutes governing the annual POMV draw and the calculation of the permanent fund dividend. We must establish a reasonable rule that protects this increasingly important source of state revenue, limits the draw on the fund's earnings and provides for an annual dividend for Alaska residents.

I urge your prompt and favorable action on this measure.

"An Act relating to employer contributions to the Public Employees' Retirement System of Alaska; and providing for an effective date."

The following fiscal information was published today:

Fiscal Note No. 1, Office of the Governor

Fiscal Note No. 2, Office of the Governor

Governor's transmittal letter dated January 19:

Dear President Micciche:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill relating to employer contributions to the Public Employees' Retirement System (PERS).

This bill requires the State of Alaska, as an employer, to pay the actuarially determined normal cost and past service cost at the contribution rate annually adopted by the Alaska Retirement Management Board under AS 37.20.220 for all actively employed defined benefit PERS members. The bill requires the State of Alaska, as an employer, to pay the actuarially determined normal cost and all contributions required under AS 39.30.370 and AS 39.35.750 for all actively employed defined contribution PERS members. This change will allow the State to collect plan benefit costs across its entire payroll base regardless of funding source. Significantly, the bill does not change contribution rates for other PERS employers.

Currently, as an employer, the State of Alaska contributes 22 percent of base salaries for all actively employed PERS members on a payroll-by-payroll basis. In addition, under AS 39.35.280, the State is required to make an additional contribution on behalf of its employees towards the plan's past service liability. The bill eliminates the requirement for the State to make these additional contributions on behalf of its employees, as that amount will now be paid directly to the system by applying the board adopted actuarial contribution rate.

This bill provides increased flexibility to the State of Alaska as an employer, without impacting other employers and while continuing to ensure the soundness and stability of the PERS system.

I urge your prompt and favorable action on this measure.
