1 **Establishing the Joint Legislative Task Force Evaluating Alaska's Seafood Industry.**

2 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

3 **WHEREAS** the seafood industry is one of the cornerstones of the state's economy,
4 supporting tens of thousands of jobs, and seafood has a multi-billion dollar economic impact
5 in the state; and

6 **WHEREAS** increased operational costs in the state, high interest rates, and
7 considerable changes in the global seafood market in recent years have placed the state's
8 seafood industry in economic peril, threatening not only the main engine of the rural
9 economies of the state but also a significant contributor to urban economies and is causing
10 harmful revenue losses to the state's general fund and to municipal budgets; and

11 **WHEREAS** decreased consumer demand has resulted in the volume of United States
12 seafood retail sales falling below benchmarks established before the COVID-19 pandemic,
13 reversing substantial gains earned in 2020, 2021, and 2022; and

14 **WHEREAS**, in 2023, global harvest, including the state's harvest and competing
15 Russian harvest, increased supply for many key state seafood products; and

16 **WHEREAS** preliminary data show that prices paid to both fishermen and processors

1 in calendar year 2023 were historically low for many key state seafood species; and

2 **WHEREAS** state seafood harvesters are in danger of being without markets and being
3 forced into economic distress; and

4 **WHEREAS** numerous seafood processing facilities are for sale, closing, or planning
5 to shut down for a portion, or all of, the 2024 fishing season; and

6 **WHEREAS** seafood is a renewable resource that is becoming increasingly unique in
7 the global market and can provide immeasurable economic benefit to this state in perpetuity;

8 **BE IT RESOLVED** that the Alaska State Legislature establishes the Joint Legislative
