FISCAL NOTE ANALYSIS

STATE OF ALASKA
2023 LEGISLATIVE SESSION**Analysis**

The Division of Retirement and Benefits (Division) anticipates no fiscal impact to the AlaskaCare employee medical plans, and submits a zero fiscal note.

The self-funded AlaskaCare active employee plan (plan) provided under AS 39.30.091 provides coverage for the full suite of Patient Protection and Affordable Care Act required preventive services, including contraceptive methods, services and supplies approved by the U.S. Food and Drug Administration, patient education and counseling, and sterilization procedures.

The plan currently provides generic contraceptives and - in cases where generics are not available or when a medical exception is granted - therapeutically equivalent brand name medication without member cost share when received through mail order or at a network pharmacy. The plan currently provides coverage for over-the-counter emergency contraceptives. Members can readily obtain a 90 day fill at either retail locations or through mail order, and extended days supplies can be approved by requesting an override if the member will be unable to access a pharmacy for an extended period of time.

While this bill would require the Division to implement some changes to current plan coverage, because the impacted benefits are already covered by the plan, the Division does not anticipate a fiscal impact.
