FISCAL NOTE ANALYSIS

STATE OF ALASKA
2023 LEGISLATIVE SESSION

Analysis

HB 112 changes the membership of the Board of Pharmacy to include a pharmacy technician; creates license types for manufacturers and internet-based pharmacies and gives the board the authority to regulate and inspect those facilities; allows for fingerprint-based criminal background checks for pharmacists and pharmacy technicians; allows pharmacists to administer epinephrine; allows the board to create the standards for an epinephrine auto-injector training program and removes such authority from the Department of Health; creates a “retired” status for pharmacist licenses; provides for the salary of board’s executive administrator to be different if the incumbent is a licensed pharmacist; and updates other sections of Alaska’s pharmacy laws (AS 08.80) to better align with national standards.

If this legislation passes, one Administrative Assistant 1 (AA1) would be required to process fingerprint cards for pharmacists and pharmacy technicians and to assist with the increase in documentation received by the pharmacy licensing team. One Records and Licensing Supervisor (RLS) would be required to assist in the coordination of the program with the added licensure requirements for manufacturers, internet-based pharmacies, and the retired status for pharmacists. Additionally, the division would require two Occupational Licensing Examiners (OLE) to review and process applications. One Investigator 3 would be required to inspect out-of-state pharmacies and manufacturers, review background checks received from fingerprint cards as needed, and investigate these additional licensees as needed. The Food and Drug Administration estimated there are 35,000 internet-based pharmacies in operation.

If the Legislation passes the following expenses will be incurred and paid from either Receipt Supported Services, fund code 1156 (RSS 1156) or general funds, fund code 1004 (GF 1004), as noted below:

Licensing fees for each occupation are set per AS 08.01.065. The total amount of revenue collected approximately equals each occupation’s actual regulatory costs.

Investigative costs are funded by General Fund (fund source 1004 Gen Fund (UGF)).
